Contents & Index

Professional English Lab Integrated | Student edition | 2026

College lab-record cover	**1**
Personal student cover	**2**
Contents & index	**3**
Original personal profile, SWOC & projects	**4-10**
Expanded NPTEL study notes - lectures 1-7	**11-17**
Completed common vocabulary worksheets (22)	**18-39**
Personalised worksheet application examples	**40-41**
Original worksheet learning reflection	**42**

Editorial note: The original individual profile, project and self-assessment pages are preserved. The common NPTEL lecture notes have been expanded, existing answered worksheets retained with black underlined answers, and personalised applications added. Only repeated lecture summaries and an incorrectly attributed reference score were excluded.

About Me, Skills and Career Roadmap

My strengths, education, goals and development path

Technical proficiencies

- Languages: C, Python; building toward Java/C++ and web technologies
- Problem solving: DSA, logical and analytical reasoning
- Practice: clean, readable, well-documented code
- Learning: actively exploring new languages, frameworks and tools

Professional strengths

- Quick adaptation to new technologies, tools and team settings
- Strong analytical thinking and a structured approach to problems
- Reliable, disciplined work ethic that puts quality ahead of shortcuts
- Team-oriented mindset that values a peaceful, respectful workplace

Education

Program	B.E. Computer Science and Engineering (CSE)
Class / Section	C
Student ID	26CS1244
Focus areas	Programming Fundamentals, Data Structures & Algorithms, Problem Solving

Career roadmap

Stage	What it means
DONE	Began the B.E. in Computer Science and Engineering at St. Joseph's College of Engineering.
IN PROGRESS	Laying strong foundations in C and Python and in core problem-solving.
GOAL	Build practical projects that show problem-solving ability, and share them on GitHub.
LONG-TERM	Graduate with a B.E. in CSE and grow into a software engineer with greater technical depth.

Future goals

In the near term I am concentrating on strengthening core computer science fundamentals and building a project portfolio that shows real problem-solving. Further out, I want roles with more technical depth and responsibility at a top-tier technology company, while continuing to learn the languages and frameworks that keep my skills current.

Personal statement

I believe steady effort and a calm, focused mind count for more than shortcuts. I want to earn opportunities through the skills I build and the problems I can solve. Honesty, patience and gradual improvement matter to me, and I hope to join a team where people learn from each other and mistakes are treated as part of growing.

> *"The expert in anything was once a beginner."*

Featured Project: MedTrace

Every dose, verified: end-to-end pharmaceutical supply chain traceability

Team lead	Guru Charan R
Team member	S. Gurubaran, Gowtham.G
Course	EN25C09 Assignment Blueprint
Project	Medicine Supply-Chain Traceability System

> *"Our goal is simple: make every handoff visible, every batch traceable, and every dose easier to trust."*

The challenge

In today's pharmaceutical supply chain a medicine can be genuine at one stage and impossible to verify at the next. That gap in visibility leaves the whole ecosystem exposed.

Counterfeit medicines

Illicit drugs slip into normal distribution channels unnoticed because the verification links between parties are broken.

Delayed recalls

Manufacturers find it hard to locate and pull faulty batches fast, putting patients at risk. Manual tracing can take days or weeks.

Stock-outs

Weak inventory tracking across the parties causes unexpected shortages of important medicines.

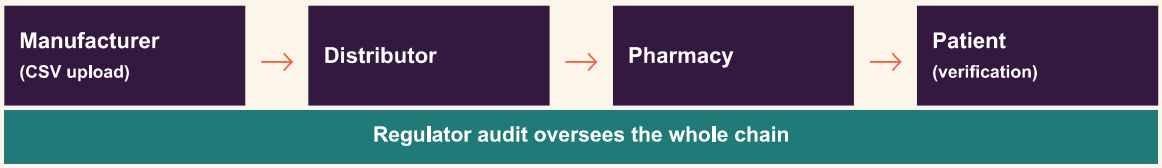

Expiry waste

Without proactive monitoring, large amounts of medicine expire unused in warehouses and pharmacies.

The solution

MedTrace creates one shared, traceable record that follows each medicine from the manufacturer to the patient. By linking the separate points in the supply chain, transparency becomes routine.

System workflow

1. Manufacturer upload

When production begins, manufacturers securely upload serialized batch data into the shared system.

2. Handoff recording

Distributors and pharmacies log every physical handoff, keeping the chain of custody up to date in real time.

Automated intelligence and safety

- **Duplicate serial detection:** immediately flags cloned or reused serial numbers entering the chain.
- **Expiry-risk alerts:** warns stakeholders well ahead of expiry dates to prevent waste or wrong dispensing.
- **Targeted batch recalls:** pulls back only the affected batches without freezing whole inventories.

Practical adoption and accessibility

CSV-first workflow

Built to be usable right away, fitting into existing legacy processes without heavy IT changes.

App-free patient verification

Patients can check a medicine's serial number directly, with no app to download or install.

Ideation canvas

Technical architecture

Flow: Manufacturer (CSV upload), Distributor, Pharmacy, Patient verification, Regulator audit.
Stack: React / Next.js and Tailwind CSS on the frontend; Supabase / Firebase with secure tokens and immutable audit logging for handoffs.

Target users and impact

Stakeholders: manufacturers, distributors / wholesalers, pharmacies / hospitals, regulators and patients.
Impact: real-time authenticity checks, strict expiry management, batch-level quarantine and fast recall response.

Feasibility and constraints

Prototype: CSV-first ingestion tested through a controlled pilot.
Core: instant duplicate-serial detection and one-click batch quarantine.

Future roadmap

Adding IoT cold-chain sensors and AI-based stock-out prediction models.

MedTrace: 90-Second Pitch

A structured pitch script

1. The problem (30 sec)

“Each year, millions of dollars' worth of counterfeit drugs reach the market, recalls take weeks to spread, and expired medicines cause waste that could have been avoided. The reason is simple: the pharmaceutical supply chain has patchy visibility across its handoffs.”

2. The solution (30 sec)

“Meet MedTrace. We join manufacturers, distributors and pharmacies in one secure, transparent pipeline built on Next.js and Supabase. With CSV batch uploads, secure tokens and immutable audit logs, each package is tracked uniquely from factory floor to patient.”

3. Feasibility and pilot (30 sec)

“We are not waiting for some theoretical future. We start with a live pilot of 1 manufacturer, 1 distributor and 2 pharmacies. We can spot duplicate serials instantly, quarantine compromised batches, and grow smoothly toward IoT cold-chain sensors.”

Early interest in programming

He became interested in programming young. At 16 he started his own web browser project, XWebs, written in C++, which gave him early software experience and showed his readiness to learn by building real things.

Career at Google

He spent over 14 years at Google, working on Chrome, developer tools, web performance and developer experience, helping programmers build, test, understand and improve web applications, and also helping bring AI capabilities into developer tools.

Current work at Anthropic

He joined Anthropic in 2026, where his work centres on Claude Code and the changing role of AI in software engineering, an area where programming, developer tools and AI increasingly overlap.

Key contributions

- Chrome and web developer tools
- Web performance and developer experience
- Writing and sharing knowledge on modern software engineering
- AI-assisted development and coding tools
- Helping developers learn and use modern technologies

Why he is inspiring

For students starting a CSE journey, his career shows the value of curiosity, experimentation, problem-solving and constant learning. His early browser project proves a student need not wait to be an expert before building software, and his later career shows how adapting to big shifts in computing creates new opportunities.

Lesson for a CSE student

Begin with small programs, understand the fundamentals, build projects, learn from mistakes and keep improving. Languages and tools will change, but the ability to solve problems and keep learning stays valuable.

“Build, learn, experiment, and keep improving.”

SWOC Analysis of Self - Guru Baran

A personal reflection on strengths, weaknesses, opportunities and challenges

Self profile	Guru Baran - 1st Year CSE Student
Career interest	Software Engineering and Technology
Current base	C, Python and foundational computer science

S - Strengths

- Positive learner: curious and willing to learn new technologies.
- Programming base: growing foundation in C and Python.
- Problem solving: interested in logical thinking and coding practice.
- Self improvement: open to feedback and continuous development.

W - Weaknesses

- Early-stage skills: advanced DSA and system concepts need practice.
- Project exposure: needs more real-world and team-based experience.
- Confidence: technical presentation and communication can improve.
- Time planning: balance academics, coding practice and self-learning.

O - Opportunities

- Online learning: courses and certifications can strengthen core skills.
- GitHub projects: personal and open-source work can build a portfolio.
- Internships: hackathons and internships provide practical exposure.
- Emerging fields: AI, cloud and web technologies offer career paths.

C - Challenges

- Fast change: technology evolves quickly and requires upskilling.
- Competition: many CSE students compete for entry-level roles.
- Consistency: regular coding practice is needed alongside college work.
- Practical readiness: industry expectations may exceed classroom learning.

Inspirations

Two engineers whose paths I learn from

Addy Osmani

Software Engineer | Web Technology | AI-Assisted Software Development

Current organization	Anthropic
Current role	Member of Technical Staff
Previous organization	Google
Experience	14+ years at Google
Known for	Chrome, developer tools, web performance & AI
Early project	XWebs browser project

Profile

Addy Osmani is a software engineer and technology leader known for his work in web development, developer tools, web performance and artificial intelligence. As of 2026 he is a Member of Technical Staff at Anthropic, contributing to Claude Code and AI-assisted software engineering.

English Proficiency

CEFR results from two independent online assessments

CEFR LEVEL

B1

Preply Online English Test

Vocabulary-based level assessment

Level: Intermediate
Words known: 2,750 at this level
To next level (B2): 1,000 more words
Meaning: can understand and use sentences on familiar or personally interesting topics from work, school or travel.

CEFR LEVEL

B1

Speak & Improve, Test 1

Research project, speaking assessment

Overall level: B1
Checked: Saturday, 3 October 2026, 10:19
Part 1 (answering questions about yourself): A2
Feedback: rated a good result, with further speaking practice recommended.

Where I stand on the CEFR scale

A1	A2	B1 | my level	B2	C1	C2
Beginner	Elementary	Intermediate	Upper-int.	Advanced	Proficient

Assessment	Date	Result	Next target
Preply online English test	Not recorded	B1 (Intermediate), 2,750 words	B2, 1,000 more words
Speak & Improve, Test 1	3 Oct 2026	B1 overall, A2 on part 1	Keep practising speaking skills

Sources: Preply online English test and the Speak & Improve research project.

Soft Skills Coursework

NPTEL: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran)

Course	Enhancing Soft Skills and Personality (NPTEL, IIT Kanpur)
Instructor	Prof. T. Ravichandran
Format	8 weeks, roughly 40 lectures of about 30 minutes each
Covered here	Lectures 1 to 3: two recap lectures and the first lesson on mindset

"Circumstances do not make a person, they reveal him."

Lecture 1: Introduction 1

A condensed look at the first half of the earlier course, Developing Soft Skills and Personality, so that newcomers can follow along. Learning here means a lasting change in behaviour, approached across the physical, mental, emotional, social and spiritual sides of a person.

Perceptions and self-management

Soft skills are skills for dealing with people, and around 80% of our happiness depends on others. From Covey: start with the end in mind and first try to understand. Next come self-awareness, confidence, emotional balance and coping with stress.

Conflict, stress and habits

Look for win-win results and say what you need rather than demanding a particular fix. Stress is a mismatch between demands and resources. A habit forms in the chain thought, action, reward, habit, character, so swap bad habits for good ones.

Summary of Interchange Exercises

A short reflection on language learning through classroom practice

What I learnt

Through the Interchange activities, I developed a clearer way of describing things that happened earlier.
I learnt to select suitable verb forms when talking about finished events and past situations.
The practice gave me confidence to explain where someone was and what actions took place before.
Using familiar examples helped me understand the language through context rather than rules alone.
I became more accurate when forming simple sentences about experiences from the past.

I also learnt how to describe old routines, repeated actions and situations that are no longer the same.
The conversation activities showed me how people naturally speak about childhood memories and habits.
I could relate the examples to my own life, which made the learning easier to remember.
I practised showing the difference between something I did before and what I do at present.
The exercises also helped me recognise how questions and negative sentences are formed in conversation.

I became more careful about word order and choosing the right form of a verb.
Repeated practice made me more comfortable responding to questions about earlier experiences.
I learnt that grammar becomes easier when it is used to communicate a real memory or idea.
This work strengthened both my sentence-building ability and my confidence while speaking English.
Overall, the activities helped me express past experiences, habits and personal changes more naturally.

Lecture 01 | Introduction 1: Highlights of Developing Soft Skills

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

Soft skills influence how knowledge becomes useful in daily life. Communication, listening, responsibility and the ability to work with other people affect both study and employment. The introductory session connects these habits with individual character and the decision to improve deliberately.

Why this matters

Technical ability is not enough on its own. An accurate explanation of a solution, an honest response to criticism, and a calm conversation in a team are also evidence of professional growth.

My understanding

The main lesson for me is that a useful skill appears in ordinary actions, especially when circumstances become demanding.

Connection to my own studies

I want to work toward software engineering, so I need to explain technical decisions in understandable language. For example, when presenting the MedTrace medicine-supply traceability proposal, I should describe the problem, my method and what I learned.

Practical action: Notice how I respond when someone disagrees with an idea; practise listening first and summarising their point before answering.

Lecture 02 | Introduction 2: Further Highlights of Developing Soft Skills

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

The second introductory lecture builds on personal development. It places attention on self-awareness, preparation, ethical conduct, listening, communication and the willingness to examine one's own behaviour. Progress is more realistic when a person observes habits instead of relying only on good intentions.

Why this matters

A conversation has a purpose, an audience and an expected result. Choosing precise words and checking understanding makes both presentations and everyday teamwork more effective.

My understanding

This discussion made me compare the way I think about a challenge with the steps I actually take to solve it.

Connection to my own studies

As I strengthen C, Python and structured problem-solving, I can practise concise presentations and active listening. A good team discussion should leave everyone knowing the next action, not merely the words that were spoken.

Practical action: After one class discussion, write down what I explained clearly, what confused others, and one small adjustment for next time.

Lecture 03 | Mindset 1: Definition and Types

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

A mindset refers to the beliefs and assumptions through which a person interprets experiences. A positive outlook encourages effort, but an unexamined negative assumption can discourage action before a problem is even attempted. Mindsets influence reactions to success, mistakes, advice and unfamiliar situations.

Why this matters

Recognising a limiting belief is different from pretending difficulties do not exist. I can acknowledge that a topic is challenging and still choose to attempt a smaller, achievable step.

My understanding

I can relate this topic to preparing for a technical career while still developing my fundamentals.

Connection to my own studies

When progress on the MedTrace medicine-supply traceability proposal is slow, I should question the assumption that a first attempt must be perfect. Breaking a complex problem into smaller parts makes the challenge easier to investigate.

Practical action: Identify one sentence I use when a task feels hard, then rewrite it as a realistic statement about a skill I can practise.

Lecture 04 | Mindset 2: Learning Mindsets

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

The learning-mindset lecture distinguishes responses that close off improvement from responses that welcome it. A fixed outlook may treat errors as proof of inability; a growth-oriented approach treats them as feedback about a method, strategy or level of preparation.

Why this matters

Progress in a difficult subject usually requires several attempts, good feedback and corrections. This does not guarantee immediate success, but it encourages sustained, thoughtful practice.

My understanding

The lecture showed me that knowing a rule and consistently following it are two different things.

Connection to my own studies

If I cannot solve a task using C, Python and structured problem-solving immediately, I will experiment with examples, read feedback carefully and retry. The main evidence of improvement is a better method after each attempt.

Practical action: When an exercise fails, record the cause, try a second method, and describe what changed rather than merely recording a wrong answer.

Lecture 05 | Mindset 3: Secrets of Developing Growth Mindsets

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

This session focuses on building a growth mindset through purposeful effort, reflection and practical goals. Improvement becomes more visible when long ambitions are divided into small tasks and when feedback is used to modify the approach rather than judge personal worth.

Why this matters

The word “yet” helps reframe an unfinished skill, but a useful growth mindset also requires evidence: repeated practice, specific study methods and honest review of results.

My understanding

I would describe the principle through the choices I make each day, rather than through a single examination result.

Connection to my own studies

My plan to develop in software engineering benefits from frequent practice. I can track a practical target, such as solving a set of small coding problems or improving one feature in the MedTrace medicine-supply traceability proposal.

Practical action: Set one weekly skill goal, complete three practice attempts and compare the final attempt with the first.

Lecture 06 | Managing Time 1: Importance and Perceptions of Time

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

Time is limited, and different activities compete for it. This lecture asks learners to consider how they perceive time and where their hours go. Without first observing real habits, a timetable may become unrealistic or fail to account for interruptions.

Why this matters

Time management starts with awareness. Planning can balance urgent work, long-term learning, breaks and responsibilities while leaving room to adjust when a task takes longer than expected.

My understanding

The material encouraged me to work deliberately, review my behaviour and make one measurable adjustment at a time.

Connection to my own studies

When juggling classes and C, Python and structured problem-solving, I need an honest picture of my schedule. I can compare planned study time with what I actually use, then adjust without removing necessary rest.

Practical action: Record one study day in half-hour blocks, identify avoidable delays and reserve a fixed period for a priority task.

Lecture 07 | Managing Time 2: Using Time Efficiently

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

Efficient time use means selecting priorities, estimating effort and limiting distractions. Working for many hours is not the same as producing good work. Concentrated sessions, realistic deadlines and checking completed tasks can improve the use of available time.

Why this matters

A short task list works best when it names a concrete output rather than an unclear intention. Reviewing progress also reveals which tasks repeatedly need more time.

My understanding

I understood the central message as a reminder to turn an idea into a habit, not simply memorise a definition.

Connection to my own studies

To make steady progress toward software engineering, I should rank important tasks, avoid constant switching and set a visible result for each study session, such as a tested function or a written explanation.

Practical action: Choose three tasks for tomorrow, estimate minutes for each, finish the most important one early and review actual times.

You Choose, We Do It
St. JOSEPH'S COLLEGE OF ENGINEERING
(An Autonomous Institution)
St. Joseph's Group of Institutions
OMR, CHENNAI - 119

VOCABULARY WORK SHEET

Part A: Fill in the Blanks

Complete the sentences using the correct terms from Units 1, 2, and 3.

1. To find out what someone's job is, you usually ask, ·What do you do?·
2. A manager who oversees a team and ensures targets are met is often said to be in charge of the department.
3. Employees who work outside standard office hours in rotation (e.g., one week morning, next week evening) are working in shifts.
4. Outside specialists hired by companies to persuade top executives to leave their current firms are known as headhunters.
5. Job applicants typically submit a CV (curriculum vitae) detailing the story of their working life alongside a covering letter.

Part B: Matching Terms to Definitions

Match each business term on the left with its correct description on the right.

1. B_____ Flexitime
2. C_____ Teleworking
3. E_____ Psychometric test
4. D_____ Shortlist
5. A_____ Referees

- **A.** Previous employers or teachers named to provide character or performance references.
- **B.** A system allowing employees to choose working hours within agreed limits.
- **C.** Working from home using a computer and telecommunications.
- **D.** A selected pool of qualified candidates chosen for final interviews.
- **E.** A written test used to assess a candidate's intelligence and personality.

Part C: Sentence Correction

Identify and correct the errors in the following sentences.

1. *Error:* "I am in charge for the design department." → *Correction:* I am in charge of the design department.

2. *Error:* "He is going to the work by train every morning." → *Correction:*
   He goes to work by train every morning.
3. *Error:* "She is a very responsible in her daily tasks." → *Correction:*
   She is very responsible in her daily tasks.

Part A: Fill in the Blanks

Complete the sentences using the correct terms from Units 4 and 5.

1. Someone who has just left university with a degree is referred to as a graduate.
2. A worker who requires virtually no specialized training or formal qualifications is classified as unskilled.
3. Salespeople often receive a basic salary plus commission, which is a percentage on everything they sell.
4. Senior executives may receive share (stock) options, giving them the right to buy company shares at low prices.
5. High-ranking corporate executives with excessive compensation packages are sometimes referred to informally as fat cats.

Part B: Matching Collocations

Match the adjectives/phrases on the left with their correct prepositional complements.

1. E_____ Skilled _____
2. D_____ Good _____
3. A_____ Computer _____
4. B_____ Self _____
5. C_____ Fringe _____

- **A.** literate
- **B.** starter / motivated
- **C.** benefits
- **D.** at / in
- **E.** with

Part C: Application & Context Analysis

Explain the difference between the following pairs in 1-2 sentences:

1. **Salary vs. Wages:**
   A salary is normally a fixed regular payment, often monthly; wages are usually calculated by hours or days worked.
   _____
2. **Severance package vs. Bonus:**
   A severance package is compensation given when employment ends; a bonus is extra pay for performance or results.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 6, 7, and 8.

1. Manual workers who use their hands and wear blue collars are often contrasted with white-collar workers in offices.
2. When workers stop working temporarily to protest pay or conditions, they go on strike.
3. A company that reduces its management layers and makes itself leaner is said to have delayered.
4. When an employee is dismissed through no fault of their own because their job no longer exists, they are made redundant.
5. An invisible barrier that prevents women from rising beyond a certain corporate level is called the _ glass __ ceiling.

Part B: Matching Health & Safety / Legal Terms

Match each workplace issue with its accurate classification.

1. B_____ Repetitive Strain Injury (RSI)
2. D_____ Passive smoking
3. A_____ Sexual harassment
4. C_____ Equal opportunities
5. E_____ Whistleblowing

- **A.** Unwelcome sexual behavior in the workplace
- **B.** Physical injury caused by continuous data entry or typing
- **C.** British term equivalent to US affirmative action
- **D.** Breathing in other people's tobacco smoke involuntarily
- **E.** Reporting illegal or unethical practices within an organization

Part C: Short Answer Exercises

1. What is the difference between being **dismissed** and being **made redundant**?
   Dismissal means an employer ends someone's employment, often because of conduct or performance. Redundancy happens when the job itself is no longer needed.
   _____
2. What is an **open-plan office**?
   An open-plan office is a shared workspace with few or no dividing walls between desks.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 9, 10, and 11.

1. Directors who are outsiders and do not participate in the day-to-day running of the company are non-executive directors.
2. In the US, the top manager is often the CEO, while chief operating officers (COOs) take care of the day-to-day running.

3. Someone who founds or establishes their own company and takes financial risks is an entrepreneur.
4. Powerful leaders who control massive business empires are often called magnates, moguls, or tycoons.
5. Businesses that are sold off by the state to private investors are privatized.

Part B: Matching Corporate Terms

Match the terms on the left with their definitions.

1. A_____ SME
2. D_____ Corporate culture
3. E_____ Enterprise zone
4. B_____ Head up
5. C_____ Boardroom

- **A.** Small and Medium-sized Enterprise
- **B.** To head or lead a department or activity
- **C.** The room where directors meet
- **D.** The shared beliefs and working style of a company
- **E.** A designated region with fewer laws and lower taxes to encourage business

Part C: Error Correction

Correct the italicized phrases:

1. "He is the head up of our marketing department." →
   He heads up our marketing department.
2. "We need to buy a commerce for our new online shop." →
   We need to set up an e-commerce business for our new online shop.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 12, 13, and 14.

1. A self-employed person working alone, especially a builder or plumber, is a sole trader.
2. A company whose shares can be freely bought and sold on the stock market is a Public Limited Company or PLC.
3. Organizations with social aims like helping the sick or poor are non-profit organizations or charities.
4. Software developers often release a final test version, called a beta version, before official launch.
5. If a design defect is discovered after a product launch, a company may have to recall it.

Part B: Sector Classification

*Classify each industry as either **Manufacturing (M)** or **Services (S)**.*

1.· 1·M Aerospace
2.· 2·S Catering
3.· 3·M Pharmaceuticals
4.· 4·S Property / Real Estate
5.· 5·M Steel production

Part C: Short Definitions

1. Define **CADCAM**:
   CADCAM means Computer-Aided Design and Computer-Aided Manufacturing; computers help design and produce goods.
   _____
2. Define **Focus group**:
   A focus group is a small group of people asked to discuss a product, idea, or advertisement to provide feedback.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 15, 16, and 17.

1.· Products that are no longer up-to-date because they use old technology are obsolete.
2. Legal protection for an invention that stops others from copying its design is a patent.
3.· The maximum amount that a plant or company can produce is its capacity.
4. Materials, components, labor, and capital used in production are collectively known as inputs.
5. Manufacturing goods efficiently without waste by having components arrive exactly when needed is just-in-time (JIT) production.

Part B: Matching Terms

1. B_____ R&D
2. A_____ Royalties
3. C_____ Craft industry
4. E_____ Work-in-progress
5. D_____ Outsourcing

- **A.** Payments made to an author or inventor for using their protected work
- **B.** Research and Development department
- **C.** Manual, labor-intensive production of items like furniture
- **D.** Using outside suppliers for services previously done in-house
- **E.** Goods that are currently being made on the production line

Part C: Short Explanations

1. Why do companies implement **Just-in-Time (JIT)** manufacturing?
   Companies use JIT to reduce inventory and storage costs, minimize waste, and receive materials only when they are needed.

   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 18, 19, and 20.

1. The objective of quality control is conformance to specifications with zero defects.
2. Comparing your performance against the best operators in the industry is called benchmarking.
3. People who buy everyday services like train travel are customers, while those who buy professional services are clients.
4. A company that sells more than any other competitor in a market is the market leader.
5. When competition is extremely strong and aggressive, it is often described as cut-throat or fierce.

Part B: Matching Terms

1. B_____ Kaizen
2. C_____ Mystery shopper
3. E_____ Market segment
4. D_____ Key players
5. A_____ BPR

- **A.** Business Process Re-engineering
- **B.** Japanese term for continuous improvement
- **C.** Person pretending to be a customer to check service quality
- **D.** The most important companies in a particular market
- **E.** A distinct group of buyers targeted within a market

Part C: Analysis Task

1. What is the difference between a **market leader** and a **challenger**?
   A market leader has the largest market share; a challenger is a competitor trying to increase its share and overtake the leader.

   _____

Part A: Fill in the Blanks

1. The four Ps of marketing are product, price, place, and promotion.
2. Consumer goods that last a long time, such as cars and washing machines, are consumer durables.
3. Products that do not have a brand name are known as unbranded products or generics.
4. Cheap items sold at or below cost to attract customers into a store are loss leaders.

5.· A small group of buyers with specialized needs forms a niche market.

Part B: Matching Terms

1. A_____ FMCG
2. B_____ Own-brand
3. D_____ Upmarket
4. C_____ Trade up
5. E_____ Price war

- **A.** Fast-Moving Consumer Goods (fast-selling items like food)
- **B.** Products sold under the retailer's own name
- **C.** Moving from basic models to more sophisticated, expensive ones
- **D.** Designed for higher-income users; upscale
- **E.** When competing companies continually reduce prices in response to each other

Part C: Short Answer

1. Name the **Four Ps** of the marketing mix:
   Product, Price, Place and Promotion.

   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 24, 25, and 26.

1.· Wholesalers and retailers are collectively known as intermediaries.
2.· A retail store that is part of a group of shops all sharing the same name is a chain store.
3. Unsolicited direct mail sent to consumers' homes is often dismissively called junk mail.
4. A series of advertisements for a particular product or company is an advertising campaign.
5. Businesses combining traditional physical shops with online e-commerce operations practice bricks-and-mortar retail.

Part B: Matching Terms

1. C_____ Cold call
2. E_____ Franchise
3. A_____ Billboard (AmE)
4. D_____ Loyalty card
5. B_____ B2B

- **A.** Open-air hoarding used for advertising
- **B.** Business-to-Business e-procurement
- **C.** Unannounced sales phone call to someone with no prior contact

- **D.** Card offering reward points based on customer spending
- **E.** Business format run by a franchisee under a franchisor's brand

Part A: Fill in the Blanks

1. Money received from sales is known as revenue or turnover.
2. Costs that do not change when production goes up or down (e.g., rent) are fixed costs.
3. Products that have very good profitability and generate large cash surpluses are cash cows.
4. Customers who owe money to a business are recorded as accounts receivable.
5. Independent outside accountants who examine a company's accounts to see if they give a true and fair view are auditors.

Part B: Matching Financial Terms

1. A_____ COGS
2. C_____ Goodwill
3. B_____ Depreciation
4. E_____ In the red
5. D_____ Window dressing

- **A.** Cost of Goods Sold (variable manufacturing costs)
- **B.** Reduction in the book value of fixed assets over time
- **C.** An intangible asset representing a company's good reputation
- **D.** Creative accounting making results look better than they are
- **E.** Operating at a financial loss or having a negative bank balance

Part A: Fill in the Blanks

1. The person who is in charge of running a meeting and keeping participants on track is the chairperson or chair, often referred to simply as the chair.

2. A list of items to be discussed during a meeting, sent out in advance, is called the agenda.

3. When negotiators or meeting participants reach a middle-ground solution where both sides make concessions, they reach a compromise.

4. Using cautious language to avoid making overly direct or absolute statements is known in discussion techniques as hedging.

5. When a meeting discussion completely breaks down and no agreement can be reached, it is referred to as a deadlock.

Part B: Matching Meeting Terms

1. C AGM
2. E Minutes
3. A Consensus
4. B Action points
5. D Hedging

- **A.** General agreement reached by all participants
- **B.** Specific tasks assigned to individuals to complete after a meeting finishes
- **C.** Annual General Meeting held once a year for shareholders
- **D.** Avoiding direct or committal statements using qualifying language
- **E.** The written record of decisions and discussions made during a meeting

Part C: Short Answer Exercises

1. What is the main responsibility of a meeting chairperson before a meeting begins?
The chairperson should plan the meeting, prepare an agenda and ensure participants receive the relevant information in advance.

2. What is the difference between reaching a **consensus** and voting on a decision?
Consensus means the group reaches general agreement through discussion; voting decides an issue by counting individual choices.

Part A: Fill in the Blanks

1. The visual items used during a presentation, such as slides, handouts, or overhead projections, are called visual aids.

2. Establishing a positive connection and good mutual relationship with your audience during a presentation is building rapport.

3. The opening part of a presentation where you welcome the audience and outline your structure is the introduction.

4. Moving around too much or making nervous hand gestures can distract from your body language during a speech.

5. When concluding a presentation, speakers typically open the floor to deal with questions from the audience.

Part B: Matching Presentation Stages

1. _C_____ Visual aids
2. _B_____ Body language
3. _D_____ Rapport
4. _E_____ Q&A session
5. _A_____ Handouts

- **A.** Printed materials distributed to listeners to supplement a presentation
- **B.** Postures, gestures, and facial expressions used while speaking
- **C.** Charts, slides, and diagrams used to illustrate key points visually
- **D.** A harmonious, trusting relationship between speaker and listeners
- **E.** The time at the end of a presentation dedicated to answering inquiries

Part C: Error Correction

Correct the italicized phrases:

1. "During my presentation, I will show you some visual supports." → During my presentation, I will show you some visual aids.

2. "Let's open the floor for some inquiries from the spectators." → Let's open the floor for questions from the audience.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 62 through 66.

1. A negotiation style where both sides aim for an outcome that benefits everyone involved is known as a win-win situation.

2. Offering something you value less in exchange for something the other party values less during talks is making trade-offs.

3. When negotiations completely stall and neither side is willing to move or compromise, they have reached a deadlock.

4. An agreement between two or more parties that is enforceable by law after a successful negotiation is a contract.

5. A neutral third party brought in to help resolve a deadlock and mediate an agreement is a mediator.

Part B: Matching Negotiation Tactics

1. _A_____ Probing

2. _D_____ Counter-proposal

3. _B_____ Deadlock

4. _E_____ Concession

5. _C_____ Mediator

- **A.** Asking probing questions to discover the other party's underlying needs
- **B.** A stall in talks where neither side will compromise
- **C.** An independent third party assisting in dispute resolution
- **DT.** A responding offer made in reaction to an initial proposal
- **E.** Something given up voluntarily to reach an agreement

Part C: Short Answer Exercises

1. What is the difference between a **hard bargaining** style and a **win-win** style?
Hard bargaining focuses on winning as much as possible for one side; a win-win style seeks a mutually beneficial agreement.
_____

2. Why is checking the final contract details essential after reaching an agreement?
Checking contract details ensures that all terms are accurate, understood, lawful, and consistent with what was agreed.
_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 36 and 37.

1. When a company sells its shares to the public for the first time, it floats the company in a flotation / initial public offering (IPO).

2. Short-term lending to businesses is known as commercial credit.

3. Financial products derived from underlying assets, such as futures and options contracts, are known as derivatives.

4. An extended period of rising share prices and optimistic dealer sentiment is referred to as a bull market.

5. Shares in long-established, stable companies with a history of profit in both good and bad times are called blue chips.

Part B: Matching Financial Markets

1. _B_____ Forex

2. _C_____ Bourse

3. _A_____ NASDAQ

4. _E_____ FTSE

5. _D_____ Bear market

- **A.** New York stock market index focusing heavily on high-tech companies
- **B.** Foreign exchange market for buying and selling national currencies
- **C.** An alternative term for a stock market or stock exchange
- **D.** A market characterized by falling prices and pessimistic dealer sentiment
- **E.** London's Financial Times Stock Exchange index

Part C: Short Answer Exercises

1. What is the difference between a **futures contract** and an **options contract**?
A futures contract generally obliges the parties to transact later at agreed terms; an option gives its buyer the right, but not the obligation, to transact.
_____

2. Why are major financial centres like London and New York often referred to by nicknames like "The City" or "Wall Street"?

The City and Wall Street are famous financial districts, so their names are used as shorthand for the financial industries based there.

Part A: Fill in the Blanks

1. The study of how money works, is used, and whether economic activities are profitable is called economics.

2. When a country exports more goods and services than it imports, it maintains a trade surplus.

3. The total monetary value of all goods and services produced within a particular country is its Gross Domestic Product (GDP).

4. A period of negative economic growth where economic output contracts is known as a recession.

5. When a bad recession becomes extremely severe, widespread, and prolonged, it is called a slump or depression.

Part B: Matching Economic Indicators

1. _C_ inflation rate ion rate

2. _D_ Trade deficit

3. _E_ Stagflation

4. _B_ Trough

5. _A_ Stagnation

- **A.** A period when the economy is growing very slowly or not at all
- **B.** The lowest point in an economic cycle before output starts rising again
- **C.** The speed at which general consumer price levels are rising
- **D.** When import payments exceed export earnings, creating a trade gap
- **E.** A difficult economic condition combining slow growth with rapid inflation

Part C: Error Correction

Correct the italicized phrases:

1. "The country's economic indicators show a high rate of inflation speeds." → The country's economic indicators show a high rate of inflation.

2. "When output reaches its lowest level, it hits a peak before rising." → When output reaches its lowest level, it hits a trough before rising.

Part A: Fill in the Blanks

1. Buying or selling securities using confidential information that is not publicly available is illegal insider dealing.

2. A secret agreement among competing companies in the same market to fix prices at a certain level is price fixing.

3. A type of fraud where an employee illegally steals and gets money from their employer is known as embezzlement.

4. The process of hiding the illegal origin of criminal money, often by purchasing property, is money laundering.

5. Directing investment funds exclusively into companies that do not harm people or the environment is ethical investment.

Part B: Matching Crime & Ethics Terms

1. _D_____ Embezzlement

2. _A_____ Counterfeiting

3. _B_____ Bribery

4. _E_____ Code of ethics

5. _C_____ Sweatshop labor

- **A.** Making illegal fake copies of banknotes, documents, or luxury goods
- **B.** Offering or receiving illegal payments to persuade someone to act corruptly
- **C.** Manual labor performed under severely exploitative, underpaid conditions
- **D.** The illegal theft of funds by someone entrusted with managing them within a firm
- **E.** A formal corporate document outlining required moral standards of behavior

Part C: Short Answer Exercises

1. What is the purpose of establishing **Chinese walls** within financial institutions?
Chinese walls separate departments and restrict confidential information to prevent conflicts of interest and insider dealing.

2. Why do institutional investors conduct annual **social performance audits**?
Social performance audits check whether companies meet ethical, social and environmental standards and help investors assess risks.

Part A: Fill in the Blanks

1. The overall period during which a project or task should be completed is referred to as the timescale or timeframe.

2. When work is completed later than the planned completion date, it is behind schedule and there is a delay.

3. Work that is difficult in an interesting, rewarding, and enjoyable way is described as challenging.

4. An extreme state of physical and mental exhaustion caused by chronic work stress is known as burnout.

5. The metaphor used to describe the exhausting, highly competitive modern corporate work environment is the rat race.

Part B: Matching Time & Stress Terms

1. D Downtime

2. E Prioritize

3. C Perfectionism

4. A Downshifting

5. B Stress-induced

- **A.** Choosing to leave behind a stressful career for a simpler, balanced lifestyle
- **B.** An unexpected illness or condition brought on by excessive pressure
- **C.** An unworkable aim for flawlessness when there is no need for it

- **D.** Periods when machinery or computers cannot operate because they are broken

- **E.** Arranging tasks in order of importance before working on them

Part C: Short Answer Exercises

1. What are the key dangers of striving for **perfectionism** when managing daily tasks?
Perfectionism can waste time, delay deadlines, increase stress and reduce productivity by focusing too much on minor details.

2. How do **downshifters** typically redefine their personal idea of success?
Downshifters often define success through well-being, family time, balance and satisfaction rather than salary or status.

Part A: Fill in the Blanks

1. People working below a manager in an organizational hierarchy are known as subordinates.

2. A leadership quality that is forward-thinking, with the power to see clearly how things will be in the future, is called being a visionary.

3. Management decisions that are arrived at by asking employees to contribute in a process of consultation are built on consultation.

4. Granting employees the initiative and authority to make decisions without asking managers first is called empowerment.

5. A corporate environment characterized by male dominance, aggressiveness, and physical strength is a macho culture.

Part B: Matching Leadership & Cultural Terms

1. B Authoritarian

2. E Decentralized

3. D Deference

4. C Corporate culture

5. A Canteen culture

- **A.** Unofficial, unapproved ways that people within an organization think and talk

- **B.** A management style that imposes decisions from above without consultation
- **C.** The shared values, habits, and working style of a specific company
- **D.** Respectful submission and yielding to the authority of superiors
- **E.** Organizational structures where decision-making authority is spread out

Part C: Error Correction

Correct the italicized phrases:

1. "The manager is very remote, so she is completely approachable by all staff." → The manager is very approachable, so all staff feel comfortable speaking to her.

2. "We operate a top-down consensus approach in our department." → We use a consultative, consensus-based approach in our department.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 46, 47, and 48.

1. In the English-speaking business world, people routinely use first names even when they do not know each other very well.

2. A company day where employees are allowed to wear less formal clothing than a standard business suit is called a casual Friday.

3. Being at work when you do not actually need to be there, simply to demonstrate commitment, is known as a culture of presenteeism.

4. A phone extension that is not connected by a physical wire, allowing movement around a home or office, is a cordless phone.

5. A phone number that provides free access for callers, such as an 0800 number, is a toll-free number.

Part B: Matching Etiquette Terms

1. B Surname
2. E Smart casual
3. D Punctuality
4. C Pager

5. AVideoconferencing

- **A.** Holding a face-to-face meeting across locations using computers and cameras
- **B.** A family name shared across relatives
- **C.** A device that receives written messages while on the move
- **D.** Arriving at meetings or appointments on time
- **E.** A relaxed yet professional style of dress that avoids full suits

Part C: Short Answer Exercises

1. What is the standard convention regarding names in the English-speaking business world?
In many English-speaking workplaces, colleagues often use first names, even when they do not know each other well.

2. How do attitudes toward **time** and schedules vary across different business cultures? Some business cultures value strict punctuality and fixed schedules, while others take a more flexible approach to time.

Part A: Fill in the Blanks

1. A formal meeting open to all shareholders of a company held once a year is an Annual General Meeting or AGM.

2. Before a meeting begins, the chairperson prepares a list of items to be discussed, known as the agenda.

3. During a meeting, the person taking notes records the decisions and discussions to produce the official minutes.

4. When a chairperson wants to open a meeting or direct attention to the first item, the chairperson formally opens the meeting.

5. Inviting specific participants to speak during a discussion helps ensure everyone has an opportunity to share their views.

Part B: Matching Meeting Terms

1. C Chairperson
2. E Agenda
3. D Minutes

4. BAction points

5. AVenue

- **A.** The official physical or virtual location where a meeting takes place
- **B.** Specific tasks assigned to individuals to execute after the meeting concludes
- **C.** The person responsible for running the meeting and keeping order
- **D.** The written record of what was discussed and decided
- **E.** The structured list of topics scheduled for discussion

Part C: Short Answer Exercises

1. What are the key responsibilities of a chairperson *during* a meeting?
The chairperson opens and guides the meeting, follows the agenda, manages time, encourages participation and summarizes decisions.
_____

2. Why is it important to distribute an agenda well in advance of a meeting?
An agenda sent early helps participants prepare, gather information and make the meeting more efficient.
_____

Part A: Fill in the Blanks

1. Using cautious language and qualifying phrases to avoid making overly direct or absolute statements is called hedging.

2. A negotiation approach where both parties work to find solutions that benefit everyone involved is a win-win situation.

3. Asking detailed and probing questions during negotiations helps uncover the other party's underlying needs.

4. When negotiators offer something they value less in exchange for a concession from the other side, they are making trade-offs.

5. When a negotiation stalls completely because neither side will compromise or move forward, they have reached a deadlock.

Part B: Matching Discussion & Negotiation Terms

1. D Hedging

2. C Consensus

3. EProbing

4. BCounter-proposal

5. AMediator

- **A.** An independent third party brought in to help resolve a deadlock
- **B.** A responding offer made in reaction to an initial bargaining position
- **C.** General agreement reached collectively by all participants
- **D.** Using cautious, non-committal language to soften statements
- **E.** Asking exploratory questions to investigate underlying interests

Part C: Error Correction

Correct the italicized phrases:

1. "We reached a deadlock, so we made a win-win compromise that pleased nobody." → We avoided deadlock by reaching a win-win compromise that satisfied both sides.

2. "During the meeting, he used too much hedging so his point was extremely direct and clear." → During the meeting, he used very little hedging, so his point was direct and clear.

Part A: Fill in the Blanks

1. A brief presentation given to inform colleagues or clients about a specific project update or status report is often structured around different types of presentations, such as a product launch.

2. When preparing a presentation, speakers should practice to ensure proper timing, avoiding rushing through the material or exceeding the allocated time.

3. Maintaining eye contact, varying vocal tone, and projecting your voice properly are all vital elements of managing your delivery during a speech.

4. Building positive engagement and mutual connection with your audience is essential for establishing good rapport early in your presentation.

5. Visual materials such as slides, handouts, and diagrams used to illustrate key concepts during a speech are called visual aids.

Part B: Matching Presentation Terms

1. D Preparation

2. A Rapport

3. B Body language

4. C Visual aids

5. E Q&A session

- **A.** A harmonious, trusting relationship established between speaker and listeners
- **B.** Postures, gestures, and physical movements used while speaking
- **C.** Charts, slides, and diagrams used to clarify information visually
- **D.** The structured process of planning, drafting, and organizing your speech
- **E.** The concluding segment dedicated to answering listener inquiries

Part C: Short Answer Exercises

1. What are the key dos and don'ts when preparing the introduction of a presentation?
Do welcome the audience, state the purpose and outline the presentation.
Don't start with irrelevant details, lengthy apologies or an unclear opening.
_____

2. How should a speaker handle difficult or hostile questions during the final question-and-answer period?
Remain calm and respectful, listen fully, clarify the question,
answer with facts and admit when you need to check something.
_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 62 and 63.

1. A negotiation where two parties try to reach an agreement over a contract or dispute is heavily influenced by the initial stage of negotiation.

2. Before entering formal talks, experienced negotiators spend significant time preparing their strategy, identifying their objectives and acceptable bargaining points.

3. The bargaining stage involves making concessions and counter-proposals to move the discussion closer to a mutually acceptable agreement.

4. Different negotiators exhibit different negotiating styles, ranging from cooperative and collaborative to highly confrontational and hard bargaining.

5. When preparing for a complex international deal, understanding cultural nuances is just as critical as analyzing the financial terms of the deal.

Part B: Matching Negotiation Terms

1. _C_ Bargaining
2. _D_ Concession
3. _A_ Counter-proposal
4. _E_ Negotiating style
5. _B_ Deal

- **A.** A responding offer made in reaction to an initial bargaining position
- **B.** An agreement or contract reached after successful discussions
- **C.** The active discussion process of trading concessions to reach agreement
- **D.** Something given up voluntarily by one party to encourage agreement
- **E.** The characteristic approach or behavioral pattern adopted by a negotiator

Part C: Error Correction

Correct the italicized phrases:

1. "During the bargaining phase, we refused to make any concessions and immediately signed the contract." →
During the bargaining phase, we exchanged concessions before agreeing on and signing the contract.

2. "His negotiating style was entirely cooperative, meaning he shouted down every proposal made by the other side." →
His negotiating style was entirely confrontational: he shouted down every proposal made by the other side.

Vocabulary in My Own Words

The worksheet answers in the following section are retained. These additional examples connect the common units to my own interests, using different sentences instead of repeating a generic model response.

01. Jobs, CVs, references and recruitment

When explaining C, Python and structured problem-solving, I can replace vague phrases with accurate terms from this unit.

02. Employment terms, salaries and benefits

I would practise this language when planning and presenting the MedTrace medicine-supply traceability proposal.

03. Offices, equality and occupational safety

These words connect business communication with my goal of working in software engineering.

04. Management roles, entrepreneurs and company culture

I can practise a short example based on the MedTrace medicine-supply traceability proposal, then revise it for clarity.

05. Business sectors, public companies and product launches

The unit gives me a clearer way to communicate progress, problems and next steps in software engineering.

06. Production, patents and research

This vocabulary would help me discuss the MedTrace medicine-supply traceability proposal while working with classmates.

07. Service quality, benchmarking and market competition

I could use these expressions to describe professional responsibilities related to software engineering.

08. Marketing, brands and market research

When explaining C, Python and structured problem-solving, I can replace vague phrases with accurate terms from this unit.

09. Retailing, franchising and consumers

I would practise this language when planning and presenting the MedTrace medicine-supply traceability proposal.

10. Meetings, reports and presentations

These words connect business communication with my goal of working in software engineering.

11. Sales communication and product launches

I can practise a short example based on the MedTrace medicine-supply traceability proposal, then revise it for clarity.

Vocabulary in My Own Words

The worksheet answers in the following section are retained. These additional examples connect the common units to my own interests, using different sentences instead of repeating a generic model response.

12. Commercial law, contracts and disputes

The unit gives me a clearer way to communicate progress, problems and next steps in software engineering.

13. Shares, investment and stock markets

This vocabulary would help me discuss the MedTrace medicine-supply traceability proposal while working with classmates.

14. The economy, inflation and economic indicators

I could use these expressions to describe professional responsibilities related to software engineering.

15. Finance language and banking controls

When explaining C, Python and structured problem-solving, I can replace vague phrases with accurate terms from this unit.

16. Projects, budgets and deadlines

I would practise this language when planning and presenting the MedTrace medicine-supply traceability proposal.

17. Leadership styles and workplace culture

These words connect business communication with my goal of working in software engineering.

18. Business etiquette and telephone use

I can practise a short example based on the MedTrace medicine-supply traceability proposal, then revise it for clarity.

19. Names, schedules and professional manners

The unit gives me a clearer way to communicate progress, problems and next steps in software engineering.

20. Meeting procedures, agendas and minutes

This vocabulary would help me discuss the MedTrace medicine-supply traceability proposal while working with classmates.

21. Negotiating, compromise and consensus

I could use these expressions to describe professional responsibilities related to software engineering.

22. Public speaking, presentation skills and bargaining

When explaining C, Python and structured problem-solving, I can replace vague phrases with accurate terms from this unit.

GURU BARAN S

VOCABULARY WORKSHEETS | ONE-PAGE LEARNING SUMMARY

Professional and workplace vocabulary

I learned useful terms for jobs, recruitment, working arrangements and workplace responsibilities. This helps me understand formal communication in an office.

Word meanings and matching

Matching words with definitions helped me recognise the meaning of unfamiliar terms and choose vocabulary that fits the context.

Grammar and sentence correction

Correcting sentences helped me pay attention to prepositions, verb forms and clear sentence structure. I can use these skills in writing and speaking.

Business and employment concepts

The exercises introduced ideas such as salaries, wages, employee benefits and workplace policies, helping me understand professional situations.

Applying words in context

Fill-in-the-blanks and short-answer activities encouraged me to think about the meaning of each sentence instead of memorising answers.

My next steps

I will revise unfamiliar words, practise using them in original sentences and apply them in interviews, presentations, emails and everyday conversations.

Overall reflection: Better vocabulary, clearer English and greater professional confidence.

Due to a high volume of requests, activating course materials in bulk may take longer than usual. We apologise for any inconvenience and appreciate your patience.
