SECTION 01

About Me

Who I am, what drives me and where I am headed

> *"I chose CSE Core to build a strong foundation in computer science, so I can understand how systems work and solve tough technical problems effectively."*

I am a first-year Computer Science and Engineering student at St. Joseph's College of Engineering, Chennai. Technology fascinates me, especially how it works under the hood, and programming languages in particular amaze me. I am driven by a deep passion for software creation: building robust applications, exploring clean code design and diving into the creative world of 3D rendering. I learn new technologies quickly because they genuinely interest me.

Snapshot

Studying	B.E. Computer Science and Engineering, St. Joseph's College of Engineering, Chennai (2026 - 2030)
Core target	A strong career in the IT and software engineering sector, focused on app development
Currently learning	Programming fundamentals in C and Python, and AI-assisted (vibe) coding
Learning style	Anything related to tech interests me, so I pick it up fast
Academic goal	Maintain academic excellence with an 8.5+ CGPA
Based in	Chennai, Tamil Nadu, India

Areas of Interest

App Development
Building intuitive, high-performance applications with a strong focus on user experience.

3D Rendering and Visuals
Exploring the intersection of programming and digital visualization.

Systems and Core Computing
Strengthening foundations in computer science principles and efficient code execution.

Programming Languages
Understanding how languages work and why they are designed the way they are.

SECTION 02

Skills, Roadmap and Achievements

Tech stack, languages and the path ahead

Tech Stack and Tooling

Domain	Tools
Languages	C, Python
Coding practice	Vibe coding (intermediate)
Editors	Visual Studio, Antigravity, OpenCode
Version control	Git, GitHub

Languages I Speak

Language	Level
Tamil	Native
English	B2 (CEFR Upper-Intermediate)
Hindi	Prachara Sabha exams completed

CEFR English Test (Preply)

Upper-Intermediate (B2): can interact with a degree of fluency and spontaneity with native speakers.

3,750 words known at this level
750 left to reach the next level (C1)

Source: Preply online English test

A2 | B1 | **B2** | C1 | C2

CEFR Speaking Test (Speak & Improve)

Overall level B1 (Intermediate): can handle most everyday situations and talk about familiar topics.

Part 1, answering questions about yourself: **A2**

Source: speakandimprove.com | Checked 3 October 2026

A2 | **B1** | B2 | C1 | C2

Career Roadmap

DONE	Started B.E. in Computer Science and Engineering at St. Joseph's College of Engineering.
IN PROGRESS	Building strong foundations in C and Python.
GOAL	Build projects and share them on GitHub.
LONG-TERM	Graduate with a B.E. in CSE and start a career as a software engineer.

Certifications and Achievements

- **Prachara Sabha Hindi exams:** completed all exams, several with distinction.
- **Spoken Hindi exams:** completed, several with distinction.
- **CEFR English test (Preply):** Upper-Intermediate, level B2.
- **CEFR Speaking test (Speak & Improve):** level B1, checked 3 October 2026.
- **B.E. candidate:** St. Joseph's College of Engineering, Chennai.

GitHub Activity (Starting Point)

0 Stars earned	**5** Commits (last year)	**0** Pull requests	**0** Issues

Every journey starts at zero. These numbers are my baseline, and building and sharing projects is the plan to grow them.

SECTION 05

MedTrace: 90-Second Pitch

A structured pitch script

1. The Problem (30 sec)

“Every year, millions of dollars in counterfeit drugs enter the market, recalls take weeks to propagate, and expired medicines cause avoidable waste. Why? Because the pharmaceutical supply chain suffers from fragmented visibility across handoffs.”

2. The Solution (30 sec)

“Meet MedTrace. We connect manufacturers, distributors, and pharmacies into a secure, transparent pipeline using Next.js and Supabase. Through CSV batch uploads, secure tokens, and immutable audit logs, every package is uniquely tracked from factory floor to patient.”

3. Feasibility and Pilot (30 sec)

“We aren't waiting for a theoretical future. We are launching with a live pilot involving 1 manufacturer, 1 distributor, and 2 pharmacies. We can instantly detect duplicate serials, quarantine compromised batches, and scale seamlessly toward IoT cold-chain sensors.”

SECTION 07

Inspiration: Linus Torvalds

Biographical profile: software engineering and open-source development

Full name	Linus Benedict Torvalds
Domain	Software Engineering and Open-Source Development
Known for	Creator of the Linux kernel and the Git version control system
Alma mater	University of Helsinki (M.S. in Computer Science)

Biographical Summary

Linus Torvalds is a world-renowned Finnish-American software engineer who revolutionized the global technology landscape. While studying computer science at the University of Helsinki in 1991, he grew frustrated with existing operating system limitations and began a personal project to build a free, UNIX-like operating system kernel. That project became Linux.

His philosophy of open-source collaboration allowed developers worldwide to inspect, modify and enhance the code, eventually powering everything from internet servers and supercomputers to Android smartphones. In 2005 he also created Git, the industry-standard distributed version control system used by software engineers globally.

Leadership and Engineering Traits

Pragmatic Problem Solving
Practical, efficient and robust engineering rather than theoretical perfection.

Decentralized Collaboration
Championed community-driven development and trusted global engineering collaboration.

Core Philosophy
Transparency and openness, summed up as “Talk is cheap. Show me the code.”

Major Recognitions

- **Millennium Technology Prize (2012):** for creating a new open-source operating system kernel.
- **IEEE Computer Pioneer Award (2014):** for monumental contributions to computer software.

Why he inspires me

Git and GitHub are already part of my toolkit, and the Linux story is the reason I want to understand systems from the ground up. “Show me the code” is also my own next step: build projects and share them publicly.

Let's Connect

Let's collaborate on beginner-friendly coding projects, or talk about programming languages and how technology works.

LECTURE 01 · EXPANDED LEARNING SUMMARY

Introduction 1: Highlights of Developing Soft Skills

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

The opening lecture revisits the importance of developing soft skills alongside academic and technical knowledge. Technical knowledge helps a person understand a subject and complete specialised tasks, while soft skills influence how that knowledge is communicated and applied in everyday situations. They shape the way people interact, respond to difficulties, make decisions and work with others. For this reason, personal development should be treated as a continuous process rather than something that happens automatically with age or experience. Soft skills are useful in classrooms, workplaces and personal relationships. A student may understand a programming concept but still need clear communication to explain the solution, ask for help or work effectively in a team. Similarly, being organised and responsible can make it easier to complete assignments and meet deadlines. These abilities become stronger when they are practised deliberately in real situations. The lecture's review encourages learners to look at their existing abilities and identify areas that need attention. Self-improvement becomes more practical when a broad intention, such as “become better at communication,” is converted into a small action that can be repeated and evaluated. Progress may be gradual, so regular practice and honest reflection are important.

My application plan

I will identify two strengths and two skills that need improvement. During the week, I will choose one measurable habit, such as explaining a technical idea clearly or contributing at least once during a group discussion. At the end of the week, I will review whether I practised it and what I can improve.

Key takeaway

Soft skills complement subject knowledge and develop through deliberate, repeated practice.

Reflection question

Which one soft skill would make the greatest difference to my learning and teamwork at present?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

LECTURE 02 · EXPANDED LEARNING SUMMARY

Introduction 2: Further Highlights of Developing Soft Skills

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

The second introductory lecture continues the review of soft-skills development, with attention to the connection between self-awareness, personal habits and personality development. Self-awareness means observing one's own behaviour, recognising strengths and limitations, and understanding how one's actions affect other people. It provides a starting point for improvement because a person cannot make a useful change without first noticing what needs to change. Personality development is not limited to appearance or the way a person speaks. It also includes attitudes, habits, responsibility, confidence and the ability to respond appropriately in different situations. Small everyday actions can influence how others experience our behaviour. For example, listening without interrupting, arriving prepared, completing promised tasks and accepting suggestions demonstrate consideration and reliability. Reflection makes these habits easier to improve. Instead of judging an entire day as successful or unsuccessful, a learner can examine one specific interaction. They can ask what went well, what could have been handled differently and what they might try next time. This turns experience into useful feedback. Self-review should be honest but constructive: the purpose is to identify a practical next step, not to become discouraged by mistakes. The central idea is that personal growth requires attention over time. A short reflection carried out regularly can reveal patterns that may otherwise go unnoticed.

My application plan

I will maintain a brief reflection journal. After an important class, discussion or group activity, I will record one interaction that went well and one action I could improve. I will choose a specific adjustment for the next similar situation and check whether it helps.

Key takeaway

Self-awareness and regular reflection help turn everyday experiences into opportunities for personal growth.

Reflection question

What pattern in my daily behaviour have I noticed, and what small change could improve it?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

LECTURE 03 · EXPANDED LEARNING SUMMARY

Mindset 1: Definition and Types

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

A mindset is a collection of beliefs, attitudes and habitual ways of thinking that influences how a person interprets situations and responds to them. Two people can face the same circumstances but react differently because they view the situation in different ways. The shoe-company example illustrates this point: two representatives visit an island where nobody wears shoes. One sees the absence of customers as a reason that selling shoes is impossible, while the other sees a possible new market. The situation is the same, but their interpretations differ. The lecture introduces different ways of describing mindsets, including positive and negative, abundance and scarcity, defence and offence, and fixed and growth mindsets. These categories describe different patterns of thinking. A mindset can influence whether a person notices possibilities, avoids challenges, welcomes feedback or repeats familiar behaviour without learning. A restrictive mindset may create mental inertia, where a person continues acting in the same way even when the approach is not producing good results. Understanding mindset is useful because thoughts can affect actions. If a learner assumes that a difficult subject is beyond their ability, they may avoid practising it. If they view difficulty as a signal to learn more, they are more likely to ask questions, try another method and improve. This does not mean that every problem is easy or that positive thinking guarantees success. It means that the way a problem is interpreted can influence the next action taken.

My application plan

When a topic feels difficult, I will examine whether my assumptions about my ability are stopping me from trying. I will identify the exact part I do not understand, seek an explanation and attempt a manageable exercise before deciding that I cannot do it.

Key takeaway

Mindset influences how people interpret challenges and choose their responses.

Reflection question

When I encounter a difficult task, do I focus first on the limitation or on the next useful step?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

LECTURE 04 · EXPANDED LEARNING SUMMARY

Mindset 2: Learning Mindsets

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

This lecture considers mindset specifically in the context of learning. Some attitudes can restrict learning, while others encourage effort, adjustment and progress. A restrictive attitude may lead a learner to believe that ability is fixed, that mistakes should be avoided or that asking questions is a sign of weakness. Such beliefs can make a person less willing to attempt unfamiliar tasks. In contrast, a learning-oriented attitude treats ability as something that can be developed through practice, suitable strategies and feedback. A useful learning mindset does not mean that effort alone is enough. Learners also need to examine whether their method is effective. If an approach does not work, repeating it without reflection may not produce improvement. A better response is to identify the difficulty, try a different explanation or strategy, and check the result. Feedback is valuable because it points to a gap between the current performance and the intended outcome. This approach is relevant to technical subjects. A programming error is not simply a sign of failure; it can provide information about an incorrect assumption, an overlooked condition or a misunderstanding of syntax. Reading the error message, testing a smaller example and reviewing the logic can help reveal the cause. The same principle applies to communication: if an explanation is unclear to a listener, the speaker can reorganise the points and try again. Learning therefore involves active participation, patience and a willingness to revise one's approach.

My application plan

I will treat a programming error as useful feedback. I will read the error message, isolate the relevant part of the code, test a smaller example and record what caused the problem. I will also note which explanation or method helped me understand it.

Key takeaway

A constructive learning mindset combines effort with feedback, reflection and changes in strategy.

Reflection question

When my first attempt does not work, what alternative strategy can I try?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

LECTURE 05 · EXPANDED LEARNING SUMMARY

Mindset 3: Secrets of Developing Growth Mindsets

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

This lecture explores how a growth mindset can be developed through practice and changes in the way a person responds to effort, challenges and setbacks. A growth mindset is based on the idea that abilities can improve over time. It encourages learners to focus on progress rather than treating their present level of performance as a permanent limit. Improvement is a process, so it usually requires repeated attempts and a willingness to learn from experience. One practical step is to replace fixed statements with learning-focused statements. Instead of saying “I cannot understand this,” a learner can say “I do not understand this yet, so I need to identify the part that is confusing me.” This change does not remove the difficulty, but it makes the next action clearer. Another important step is to set specific goals. A goal such as “improve programming” is broad, whereas “complete one exercise on loops and explain the logic” is easier to practise and review. Feedback also supports growth. A learner can use comments from a teacher, classmate or test result to identify what needs attention. The goal is not to accept every comment without thinking, but to consider useful evidence and make an appropriate adjustment. Tracking progress across several attempts can help reveal improvement that may not be obvious from one day's work. A growth mindset is therefore built through consistent habits: choosing manageable challenges, using feedback, reflecting on results and continuing to practise.

My application plan

I will replace fixed statements about my ability with a concrete learning goal. For each challenging topic, I will record the first attempt, the feedback or error I noticed, the change I made and what improved on the next attempt.

Key takeaway

Growth develops through consistent effort, useful feedback and a willingness to adjust learning strategies.

Reflection question

What evidence can I record to show that I am improving at a skill over time?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

LECTURE 06 · EXPANDED LEARNING SUMMARY

Managing Time 1: Importance and Perceptions of Time

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

The lecture introduces time management by examining why time matters and how people perceive and value it. Time is a limited resource: once a period has passed, it cannot be recovered. However, people do not always use or experience time in the same way. An activity may feel short when a person is fully engaged and much longer when attention is divided or the task is unclear. Personal habits, priorities and distractions can therefore influence how effectively time is used. The first step towards managing time is awareness. Before changing a routine, it is useful to observe how a normal day is spent. A learner may discover that some periods are used productively, while other periods are lost through avoidable interruptions, unclear planning or switching repeatedly between activities. Recording activities for a short period can make these patterns easier to recognise. Time management is not simply about filling every minute with work. Rest, meals, travel and recreation are also part of a balanced routine. A realistic plan recognises that people need breaks and that tasks may take longer than expected. The purpose of observing time use is to make informed decisions about priorities, not to create an unnecessarily strict schedule. For a student, awareness of time can help balance lectures, assignments, revision and personal activities. Once the actual pattern is understood, it becomes easier to decide what needs more attention and where a small adjustment could make the day more organised.

My application plan

I will record how I use a normal study day, including classes, study periods, breaks and distractions. At the end of the day, I will identify one avoidable source of lost time and make a realistic adjustment for the following day.

Key takeaway

Observe and understand current time use before making changes to a daily routine.

Reflection question

Which activity takes more time than I expect, and what does that tell me about my routine?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

LECTURE 07 · EXPANDED LEARNING SUMMARY

Managing Time 2: Using Time Efficiently

Course: Enhancing Soft Skills and Personality | IIT Kanpur | Prof. T. Ravichandran

Expanded lecture notes

Building on the importance of time awareness, this lecture focuses on using available hours efficiently. Effective time use begins with clear priorities. Not every task has the same importance or urgency, so a learner should decide which activities need attention first. A short priority list can prevent minor tasks from taking up the time needed for important academic work. Planning also requires realistic estimates. If a task is expected to take twenty minutes but usually takes an hour, the schedule will repeatedly become difficult to follow. Estimating duration from previous experience can make plans more practical. It is also helpful to divide large assignments into smaller steps. Completing a defined step gives a clearer sense of progress and makes it easier to resume work later. Efficiency does not mean rushing or attempting several demanding tasks at once. Constantly switching between activities can interrupt concentration. Working on one priority for a focused period, taking a suitable break and then reviewing progress may be more effective. A useful plan should also leave some flexibility for unexpected tasks or delays. For a student, these methods can be applied to programming practice, assignment preparation and revision. Instead of writing “study programming” on a list, the task can be divided into actions such as reviewing one concept, solving an exercise, testing the result and noting a question. At the end of the day, the plan can be reviewed and adjusted based on what was actually completed.

My application plan

I will make a short priority list, estimate how long each task may take and begin with the most important academic work. I will divide larger tasks into smaller actions and review the list at the end of the day so that unfinished work can be planned realistically.

Key takeaway

Prioritise important work, estimate task duration realistically and review progress regularly.

Reflection question

Does my daily plan reflect the importance of tasks, or only how easy they are to complete?

Editorial note: Expanded from the lecture-summary content already present in the supplied record. The wording adds explanation and student-focused examples; it does not claim additional transcript details.

SWOC Analysis: Software Engineering Career

Strategic evaluation of the IT sector

Target profile	1st Year CSE Student (Roll No: 26CS314)
Target domain	Software Engineering (Microsoft, Google, Amazon, Infosys)
Core base	C, Python

Strengths (Internal / Sector Advantages)

• **High industry demand:** Software engineering remains one of the most vital and expansive global career sectors.

• **Versatile foundation:** Proficiency in C and Python provides a solid base for algorithmic problem-solving.

• **Lucrative compensation:** Top-tier product and service companies offer strong growth and remuneration.

• **Scalable impact:** Software can scale globally, reaching millions of users.

Weaknesses (Internal / Sector Challenges)

• **Steep learning curve:** Mastering advanced DSA and System Design requires rigorous, long-term effort.

• **High initial competition:** Entry-level hiring pools are saturated with engineering graduates.

• **Continuous up-skilling:** Tech stacks evolve rapidly, requiring learning beyond the curriculum.

• **Impatience with theory:** Balancing theory with practical coding can feel overwhelming for beginners.

Opportunities (External Growth Factors)

• **AI and cloud expansion:** The global shift toward AI, ML and cloud creates new specialized roles.

• **Open-source ecosystem:** Platforms like GitHub let students build public portfolios and collaborate.

• **Remote and flexible work:** Hybrid and remote models offer global mobility.

• **Internships and hackathons:** Early exposure accelerates professional networking.

Challenges (External Industry Risks)

• **Economic volatility:** Hiring corrections can tighten entry-level job availability.

• **AI automation in coding:** AI assistants shift focus toward higher-level architecture over basic syntax.

• **Workplace stress:** High-pressure environments can lead to burnout without work-life balance.

• **Rapid obsolescence:** Frameworks and tools can become outdated if engineers do not adapt.

SECTION 08

Summary of Interchange Exercises

What I learnt from the Cambridge Interchange activities

I learnt how to speak more clearly about events and experiences that happened in the past. The activities helped me understand how verb forms change when I describe completed actions. I became more confident in choosing the correct words while talking about where people were and what they did in earlier situations. I also practised common verbs used in everyday conversation, which helped me make my sentences sound more natural and accurate.

I also learnt how to describe habits, routines and situations from earlier stages of life. The exercises showed me how to explain things that happened regularly before but do not happen now. Through the conversation about childhood pets, I understood how grammar can be used naturally while sharing memories and personal experiences. This made it easier for me to connect grammar rules with practical speaking instead of learning them separately.

Overall, the Interchange exercises improved my understanding of talking about the past. They gave me useful practice in forming questions, positive sentences and negative sentences in a conversational way. I became more aware of sentence structure and the correct form of verbs when speaking about past experiences. The activities also improved my confidence in using English to describe memories, routines and changes in a simple and meaningful way.

SECTION 04

Featured Project: MedTrace

Every Dose, Verified: end-to-end pharmaceutical supply chain traceability

Project lead	Guru Charan
Course	EN25C09 Assignment Blueprint
Project	Medicine Supply-Chain Traceability System

> *"Our goal is simple: make every handoff visible, every batch traceable, and every dose easier to trust."*

The Challenge

In the current pharmaceutical supply chain, a medicine can be genuine at one stage and become completely impossible to verify at the next. This lack of visibility creates severe vulnerabilities across the ecosystem.

Counterfeit Medicines

Illicit drugs enter standard distribution channels undetected due to broken verification links between entities.

Delayed Recalls

Manufacturers struggle to locate and recall compromised batches quickly, endangering patient safety. Manual tracing can take days or weeks.

Stock-Outs

Inefficient inventory tracking across stakeholders leads to unexpected shortages of crucial medications.

Expiry Waste

Lack of proactive monitoring results in large quantities of medicine expiring unused in warehouses and pharmacies.

The Solution

MedTrace establishes a shared, traceable record that follows each medicine from the manufacturer all the way to the patient. By connecting disparate nodes in the supply chain, transparency becomes standard practice.

System Workflow

Manufacturer (CSV upload)	Distributor	Pharmacy	Patient verification	Regulator audit

1. Manufacturer Upload

Manufacturers securely upload serialized batch data into the shared system upon production initiation.

2. Handoff Recording

Distributors and pharmacies record every physical handoff, updating the chain of custody in real time.

Automated Intelligence and Safety

- **Duplicate serial detection:** instantly flags cloned or recycled serial numbers entering the supply chain.
- **Expiry-risk alerts:** notifies stakeholders well in advance of expiry dates to prevent waste or dispensing errors.
- **Targeted batch recalls:** precision recalls that isolate affected batches without locking down entire inventories.

Practical Adoption and Accessibility

CSV-First Workflow

Designed for immediate practicality, fitting into existing legacy processes without massive IT overhauls.

App-Free Patient Verification

Patients can verify a medicine's serial number directly, without downloading or installing any app.

Ideation Canvas

Technical Architecture

Flow: Manufacturer (CSV upload), Distributor, Pharmacy, Patient verification, Regulator audit.
Stack: React / Next.js and Tailwind CSS on the frontend; Supabase / Firebase with secure tokens and immutable audit logging for handoffs.

Target Users and Impact

Stakeholders: manufacturers, distributors/wholesalers, pharmacies/hospitals, regulators and patients.
Impact: real-time authenticity checks, strict expiry management, batch-level quarantine and rapid recall response.

Feasibility and Constraints

Prototype: CSV-first ingestion validated via a controlled pilot.
Core: instant duplicate-serial detection and single-click batch quarantine.

Future Roadmap

Integration of IoT cold-chain sensors and AI-driven stock-out prediction models.

VOCABULARY WORK SHEET

Part A: Fill in the Blanks

Complete the sentences using the correct terms from Units 1, 2, and 3.

1. To find out what someone's job is, you usually ask, ·What do you do?·
2. A manager who oversees a team and ensures targets are met is often said to be in charge of the department.
3. Employees who work outside standard office hours in rotation (e.g., one week morning, next week evening) are working in shifts.
4. Outside specialists hired by companies to persuade top executives to leave their current firms are known as headhunters.
5. Job applicants typically submit a CV (curriculum vitae) detailing the story of their working life alongside a covering letter.

Part B: Matching Terms to Definitions

Match each business term on the left with its correct description on the right.

1. B_____ Flexitime
2. C_____ Teleworking
3. E_____ Psychometric test
4. D_____ Shortlist
5. A_____ Referees

- **A.** Previous employers or teachers named to provide character or performance references.
- **B.** A system allowing employees to choose working hours within agreed limits.
- **C.** Working from home using a computer and telecommunications.
- **D.** A selected pool of qualified candidates chosen for final interviews.
- **E.** A written test used to assess a candidate's intelligence and personality.

Part C: Sentence Correction

Identify and correct the errors in the following sentences.

1. *Error:* "I am in charge for the design department." → *Correction:* I am in charge of the design department.

2. *Error:* "He is going to the work by train every morning." → *Correction:*
   He goes to work by train every morning.
3. *Error:* "She is a very responsible in her daily tasks." → *Correction:*
   She is very responsible in her daily tasks.

Part A: Fill in the Blanks

Complete the sentences using the correct terms from Units 4 and 5.

1. Someone who has just left university with a degree is referred to as a graduate.
2. A worker who requires virtually no specialized training or formal qualifications is classified as unskilled.
3. Salespeople often receive a basic salary plus commission, which is a percentage on everything they sell.
4. Senior executives may receive share (stock) options, giving them the right to buy company shares at low prices.
5. High-ranking corporate executives with excessive compensation packages are sometimes referred to informally as fat cats.

Part B: Matching Collocations

Match the adjectives/phrases on the left with their correct prepositional complements.

1. E_____ Skilled _____
2. D_____ Good _____
3. A_____ Computer _____
4. B_____ Self _____
5. C_____ Fringe _____

- **A.** literate
- **B.** starter / motivated
- **C.** benefits
- **D.** at / in
- **E.** with

Part C: Application & Context Analysis

Explain the difference between the following pairs in 1-2 sentences:

1. **Salary vs. Wages:**
   A salary is normally a fixed regular payment, often monthly; wages are usually calculated by hours or days worked.
   _____
2. **Severance package vs. Bonus:**
   A severance package is compensation given when employment ends; a bonus is extra pay for performance or results.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 6, 7, and 8.

1. Manual workers who use their hands and wear blue collars are often contrasted with white-collar workers in offices.
2. When workers stop working temporarily to protest pay or conditions, they go on strike.
3. A company that reduces its management layers and makes itself leaner is said to have downsized / delayered and redundant.
4. When an employee is dismissed through no fault of their own because their job no longer exists, they are made glass.
5. An invisible barrier that prevents women from rising beyond a certain corporate level is called the _____ ceiling.

Part B: Matching Health & Safety / Legal Terms

Match each workplace issue with its accurate classification.

1. B_____ Repetitive Strain Injury (RSI)
2. D_____ Passive smoking
3. A_____ Sexual harassment
4. C_____ Equal opportunities
5. E_____ Whistleblowing

- **A.** Unwelcome sexual behavior in the workplace
- **B.** Physical injury caused by continuous data entry or typing
- **C.** British term equivalent to US affirmative action
- **D.** Breathing in other people's tobacco smoke involuntarily
- **E.** Reporting illegal or unethical practices within an organization

Part C: Short Answer Exercises

1. What is the difference between being **dismissed** and being **made redundant**?
   Dismissal means an employer ends someone's employment, often because of conduct or performance. Redundancy happens when the job itself is no longer needed.
   _____
2. What is an **open-plan office**?
   An open-plan office is a shared workspace with few or no dividing walls between desks.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 9, 10, and 11.

1. Directors who are outsiders and do not participate in the day-to-day running of the company are non-executive directors.
2. In the US, the top manager is often the CEO, while chief operating officers (COOs) take care of the day-to-day running.

3. Someone who founds or establishes their own company and takes financial risks is an entrepreneur.
4. Powerful leaders who control massive business empires are often called magnates, moguls, or tycoons.
5. Businesses that are sold off by the state to private investors are privatized.

Part B: Matching Corporate Terms

Match the terms on the left with their definitions.

1. A_____ SME
2. D_____ Corporate culture
3. E_____ Enterprise zone
4. B_____ Head up
5. C_____ Boardroom

- **A.** Small and Medium-sized Enterprise
- **B.** To head or lead a department or activity
- **C.** The room where directors meet
- **D.** The shared beliefs and working style of a company
- **E.** A designated region with fewer laws and lower taxes to encourage business

Part C: Error Correction

Correct the italicized phrases:

1. "He is the head up of our marketing department." →
   He heads up our marketing department.
2. "We need to buy a commerce for our new online shop." →
   We need to set up an e-commerce business for our new online shop.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 12, 13, and 14.

1. A self-employed person working alone, especially a builder or plumber, is a sole trader.
2. A company whose shares can be freely bought and sold on the stock market is a Public Limited Company or PLC.
3. Organizations with social aims like helping the sick or poor are non-profit organizations or charities.
4. Software developers often release a final test version, called a beta version, before official launch.
5. If a design defect is discovered after a product launch, a company may have to recall it.

Part B: Sector Classification

*Classify each industry as either **Manufacturing (M)** or **Services (S)**.*

1. 1·M Aerospace
2. 2·S Catering
3. 3·M Pharmaceuticals
4. 4·S Property / Real Estate
5. 5·M Steel production

Part C: Short Definitions

1. Define **CADCAM**:
   CADCAM means Computer-Aided Design and Computer-Aided Manufacturing; computers help design and produce goods.
   _____
2. Define **Focus group**:
   A focus group is a small group of people asked to discuss a product, idea, or advertisement to provide feedback.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 15, 16, and 17.

1. Products that are no longer up-to-date because they use old technology are obsolete.
2. Legal protection for an invention that stops others from copying its design is a patent.
3. The maximum amount that a plant or company can produce is its capacity.
4. Materials, components, labor, and capital used in production are collectively known as inputs.
5. Manufacturing goods efficiently without waste by having components arrive exactly when needed is just-in-time (JIT) production.

Part B: Matching Terms

1. B_____ R&D
2. A_____ Royalties
3. C_____ Craft industry
4. E_____ Work-in-progress
5. D_____ Outsourcing

- **A.** Payments made to an author or inventor for using their protected work
- **B.** Research and Development department
- **C.** Manual, labor-intensive production of items like furniture
- **D.** Using outside suppliers for services previously done in-house
- **E.** Goods that are currently being made on the production line

Part C: Short Explanations

1. Why do companies implement **Just-in-Time (JIT)** manufacturing?
   Companies use JIT to reduce inventory and storage costs, minimize waste, and receive materials only when they are needed.

_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 18, 19, and 20.

1. The objective of quality control is conformance to specifications with zero defects.
2. Comparing your performance against the best operators in the industry is called benchmarking.
3. People who buy everyday services like train travel are customers, while those who buy professional services are clients.
4. A company that sells more than any other competitor in a market is the market leader.
5. When competition is extremely strong and aggressive, it is often described as cut-throat or fierce.

Part B: Matching Terms

1. B_____ Kaizen
2. C_____ Mystery shopper
3. E_____ Market segment
4. D_____ Key players
5. A_____ BPR

- **A.** Business Process Re-engineering
- **B.** Japanese term for continuous improvement
- **C.** Person pretending to be a customer to check service quality
- **D.** The most important companies in a particular market
- **E.** A distinct group of buyers targeted within a market

Part C: Analysis Task

1. What is the difference between a **market leader** and a **challenger**?
   A market leader has the largest market share; a challenger is a competitor trying to increase its share and overtake the leader.

_____

Part A: Fill in the Blanks

1. The four Ps of marketing are product, price, place, and promotion.
2. Consumer goods that last a long time, such as cars and washing machines, are consumer durables.
3. Products that do not have a brand name are known as unbranded products or generics.
4. Cheap items sold at or below cost to attract customers into a store are loss leaders.

5.· A small group of buyers with specialized needs forms a niche market.

Part B: Matching Terms

1. A_____ FMCG
2. B_____ Own-brand
3. D_____ Upmarket
4. C_____ Trade up
5. E_____ Price war

- **A.** Fast-Moving Consumer Goods (fast-selling items like food)
- **B.** Products sold under the retailer's own name
- **C.** Moving from basic models to more sophisticated, expensive ones
- **D.** Designed for higher-income users; upscale
- **E.** When competing companies continually reduce prices in response to each other

Part C: Short Answer

1. Name the **Four Ps** of the marketing mix:
   Product, Price, Place and Promotion.

_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 24, 25, and 26.

1.· Wholesalers and retailers are collectively known as intermediaries.
2.· A retail store that is part of a group of shops all sharing the same name is a chain store.
3. Unsolicited direct mail sent to consumers' homes is often dismissively called junk mail.
4. A series of advertisements for a particular product or company is an advertising campaign.
5. Businesses combining traditional physical shops with online e-commerce operations practice bricks-and-mortar retail.

Part B: Matching Terms

1. C_____ Cold call
2. E_____ Franchise
3. A_____ Billboard (AmE)
4. D_____ Loyalty card
5. B_____ B2B

- **A.** Open-air hoarding used for advertising
- **B.** Business-to-Business e-procurement
- **C.** Unannounced sales phone call to someone with no prior contact

- **D.** Card offering reward points based on customer spending
- **E.** Business format run by a franchisee under a franchisor's brand

Part A: Fill in the Blanks

1. Money received from sales is known as revenue or turnover.
2. Costs that do not change when production goes up or down (e.g., rent) are fixed costs.
3. Products that have very good profitability and generate large cash surpluses are cash cows.
4. Customers who owe money to a business are recorded as accounts receivable.
5. Independent outside accountants who examine a company's accounts to see if they give a true and fair view are auditors.

Part B: Matching Financial Terms

1. A_____ COGS
2. C_____ Goodwill
3. B_____ Depreciation
4. E_____ In the red
5. D_____ Window dressing

- **A.** Cost of Goods Sold (variable manufacturing costs)
- **B.** Reduction in the book value of fixed assets over time
- **C.** An intangible asset representing a company's good reputation
- **D.** Creative accounting making results look better than they are
- **E.** Operating at a financial loss or having a negative bank balance

Part A: Fill in the Blanks

1. The person who is in charge of running a meeting and keeping participants on track is the chairperson or chair, often referred to simply as the chair.

2. A list of items to be discussed during a meeting, sent out in advance, is called the agenda.

3. When negotiators or meeting participants reach a middle-ground solution where both sides make concessions, they reach a compromise.

4. Using cautious language to avoid making overly direct or absolute statements is known in discussion techniques as hedging.

5. When a meeting discussion completely breaks down and no agreement can be reached, it is referred to as a deadlock.

Part B: Matching Meeting Terms

1. C AGM
2. E Minutes
3. A Consensus
4. B Action points
5. D Hedging

- **A.** General agreement reached by all participants
- **B.** Specific tasks assigned to individuals to complete after a meeting finishes
- **C.** Annual General Meeting held once a year for shareholders
- **D.** Avoiding direct or committal statements using qualifying language
- **E.** The written record of decisions and discussions made during a meeting

Part C: Short Answer Exercises

1. What is the main responsibility of a meeting chairperson before a meeting begins?

The chairperson should plan the meeting, prepare an agenda and ensure participants receive the relevant information in advance.

2. What is the difference between reaching a **consensus** and voting on a decision?

Consensus means the group reaches general agreement through discussion; voting decides an issue by counting individual choices.

Part A: Fill in the Blanks

1. The visual items used during a presentation, such as slides, handouts, or overhead projections, are called visual aids.

2. Establishing a positive connection and good mutual relationship with your audience during a presentation is building rapport.

3. The opening part of a presentation where you welcome the audience and outline your structure is the introduction.

4. Moving around too much or making nervous hand gestures can distract from your body language during a speech.

5. When concluding a presentation, speakers typically open the floor to deal with questions from the audience.

Part B: Matching Presentation Stages

1. _C_____ Visual aids
2. _B_____ Body language
3. _D_____ Rapport
4. _E_____ Q&A session
5. _A_____ Handouts

- **A.** Printed materials distributed to listeners to supplement a presentation
- **B.** Postures, gestures, and facial expressions used while speaking
- **C.** Charts, slides, and diagrams used to illustrate key points visually
- **D.** A harmonious, trusting relationship between speaker and listeners
- **E.** The time at the end of a presentation dedicated to answering inquiries

Part C: Error Correction

Correct the italicized phrases:

1. "During my presentation, I will show you some visual supports." → During my presentation, I will show you some visual aids.

2. "Let's open the floor for some inquiries from the spectators." → Let's open the floor for questions from the audience.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 62 through 66.

1. A negotiation style where both sides aim for an outcome that benefits everyone involved is known as a win-win situation.

2. Offering something you value less in exchange for something the other party values less during talks is making trade-offs.

3. When negotiations completely stall and neither side is willing to move or compromise, they have reached a deadlock.

4. An agreement between two or more parties that is enforceable by law after a successful negotiation is a contract.

5. A neutral third party brought in to help resolve a deadlock and mediate an agreement is a mediator.

Part B: Matching Negotiation Tactics

1. _A_____ Probing

2. _D_____ Counter-proposal

3. _B_____ Deadlock

4. _E_____ Concession

5. _C_____ Mediator

- **A.** Asking probing questions to discover the other party's underlying needs
- **B.** A stall in talks where neither side will compromise
- **C.** An independent third party assisting in dispute resolution
- **DT.** A responding offer made in reaction to an initial proposal
- **E.** Something given up voluntarily to reach an agreement

Part C: Short Answer Exercises

1. What is the difference between a **hard bargaining** style and a **win-win** style?
Hard bargaining focuses on winning as much as possible for one side; a win-win style seeks a mutually beneficial agreement.

2. Why is checking the final contract details essential after reaching an agreement?
Checking contract details ensures that all terms are accurate, understood, lawful, and consistent with what was agreed.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 36 and 37.

1. When a company sells its shares to the public for the first time, it floats the company in a flotation / initial public offering (IPO).

2. Short-term lending to businesses is known as commercial credit.

3. Financial products derived from underlying assets, such as futures and options contracts, are known as derivatives.

4. An extended period of rising share prices and optimistic dealer sentiment is referred to as a bull market.

5. Shares in long-established, stable companies with a history of profit in both good and bad times are called blue chips.

Part B: Matching Financial Markets

1. _B_____ Forex

2. _C_____ Bourse

3. _A_____ NASDAQ

4. _E_____ FTSE

5. _D_____ Bear market

- **A.** New York stock market index focusing heavily on high-tech companies
- **B.** Foreign exchange market for buying and selling national currencies
- **C.** An alternative term for a stock market or stock exchange
- **D.** A market characterized by falling prices and pessimistic dealer sentiment
- **E.** London's Financial Times Stock Exchange index

Part C: Short Answer Exercises

1. What is the difference between a **futures contract** and an **options contract**?
A futures contract generally obliges the parties to transact later at agreed terms; an option gives its buyer the right, but not the obligation, to transact.

2. Why are major financial centres like London and New York often referred to by nicknames like "The City" or "Wall Street"?

The City and Wall Street are famous financial districts, so their names are used as shorthand for the financial industries based there.

Part A: Fill in the Blanks

1. The study of how money works, is used, and whether economic activities are profitable is called economics.

2. When a country exports more goods and services than it imports, it maintains a trade surplus.

3. The total monetary value of all goods and services produced within a particular country is its Gross Domestic Product (GDP).

4. A period of negative economic growth where economic output contracts is known as a recession.

5. When a bad recession becomes extremely severe, widespread, and prolonged, it is called a slump or depression.

Part B: Matching Economic Indicators

1. C Inflation rate
2. D Trade deficit
3. E Stagflation
4. B Trough
5. A Stagnation

- **A.** A period when the economy is growing very slowly or not at all
- **B.** The lowest point in an economic cycle before output starts rising again
- **C.** The speed at which general consumer price levels are rising
- **D.** When import payments exceed export earnings, creating a trade gap
- **E.** A difficult economic condition combining slow growth with rapid inflation

Part C: Error Correction

Correct the italicized phrases:

1. "The country's economic indicators show a high rate of inflation speeds." → The country's economic indicators show a high rate of inflation.

2. "When output reaches its lowest level, it hits a peak before rising." → When output reaches its lowest level, it hits a trough before rising.

Part A: Fill in the Blanks

1. Buying or selling securities using confidential information that is not publicly available is illegal insider dealing.

2. A secret agreement among competing companies in the same market to fix prices at a certain level is price fixing.

3. A type of fraud where an employee illegally steals and gets money from their employer is known as embezzlement.

4. The process of hiding the illegal origin of criminal money, often by purchasing property, is money laundering.

5. Directing investment funds exclusively into companies that do not harm people or the environment is ethical investment.

Part B: Matching Crime & Ethics Terms

1. _D_____ Embezzlement

2. _A_____ Counterfeiting

3. _B_____ Bribery

4. _E_____ Code of ethics

5. _C_____ Sweatshop labor

- **A.** Making illegal fake copies of banknotes, documents, or luxury goods
- **B.** Offering or receiving illegal payments to persuade someone to act corruptly
- **C.** Manual labor performed under severely exploitative, underpaid conditions
- **D.** The illegal theft of funds by someone entrusted with managing them within a firm
- **E.** A formal corporate document outlining required moral standards of behavior

Part C: Short Answer Exercises

1. What is the purpose of establishing **Chinese walls** within financial institutions?
Chinese walls separate departments and restrict confidential information to prevent conflicts of interest and insider dealing.

2. Why do institutional investors conduct annual **social performance audits**?
Social performance audits check whether companies meet ethical, social and environmental standards and help investors assess risks.

Part A: Fill in the Blanks

1. The overall period during which a project or task should be completed is referred to as the timescale or timeframe.

2. When work is completed later than the planned completion date, it is behind schedule and there is a delay.

3. Work that is difficult in an interesting, rewarding, and enjoyable way is described as challenging.

4. An extreme state of physical and mental exhaustion caused by chronic work stress is known as burnout.

5. The metaphor used to describe the exhausting, highly competitive modern corporate work environment is the rat race.

Part B: Matching Time & Stress Terms

1. D Downtime

2. E Prioritize

3. C Perfectionism

4. A Downshifting

5. B Stress-induced

- **A.** Choosing to leave behind a stressful career for a simpler, balanced lifestyle
- **B.** An unexpected illness or condition brought on by excessive pressure
- **C.** An unworkable aim for flawlessness when there is no need for it

- **D.** Periods when machinery or computers cannot operate because they are broken
- **E.** Arranging tasks in order of importance before working on them

Part C: Short Answer Exercises

1. What are the key dangers of striving for **perfectionism** when managing daily tasks?
Perfectionism can waste time, delay deadlines, increase stress and reduce productivity by focusing too much on minor details.

2. How do **downshifters** typically redefine their personal idea of success?
Downshifters often define success through well-being, family time, balance and satisfaction rather than salary or status.

Part A: Fill in the Blanks

1. People working below a manager in an organizational hierarchy are known as subordinates.

2. A leadership quality that is forward-thinking, with the power to see clearly how things will be in the future, is called being a visionary.

3. Management decisions that are arrived at by asking employees to contribute in a process of consultation are built on consultation.

4. Granting employees the initiative and authority to make decisions without asking managers first is called empowerment.

5. A corporate environment characterized by male dominance, aggressiveness, and physical strength is a macho culture.

Part B: Matching Leadership & Cultural Terms

1. B Authoritarian
2. E Decentralized
3. D Deference
4. C Corporate culture
5. A Canteen culture

- **A.** Unofficial, unapproved ways that people within an organization think and talk

- **B.** A management style that imposes decisions from above without consultation
- **C.** The shared values, habits, and working style of a specific company
- **D.** Respectful submission and yielding to the authority of superiors
- **E.** Organizational structures where decision-making authority is spread out

Part C: Error Correction

Correct the italicized phrases:

1. "The manager is very remote, so she is completely approachable by all staff." → The manager is very approachable, so all staff feel comfortable speaking to her.

2. "We operate a top-down consensus approach in our department." → We use a consultative, consensus-based approach in our department.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 46, 47, and 48.

1. In the English-speaking business world, people routinely use first names even when they do not know each other very well.

2. A company day where employees are allowed to wear less formal clothing than a standard business suit is called a casual Friday.

3. Being at work when you do not actually need to be there, simply to demonstrate commitment, is known as a culture of presenteeism.

4. A phone extension that is not connected by a physical wire, allowing movement around a home or office, is a cordless phone.

5. A phone number that provides free access for callers, such as an 0800 number, is a toll-free number.

Part B: Matching Etiquette Terms

1. B Surname
2. E Smart casual
3. D Punctuality
4. C Pager

5. AVideoconferencing

- **A.** Holding a face-to-face meeting across locations using computers and cameras
- **B.** A family name shared across relatives
- **C.** A device that receives written messages while on the move
- **D.** Arriving at meetings or appointments on time
- **E.** A relaxed yet professional style of dress that avoids full suits

Part C: Short Answer Exercises

1. What is the standard convention regarding names in the English-speaking business world?
In many English-speaking workplaces, colleagues often use first names, even when they do not know each other well.

2. How do attitudes toward **time** and schedules vary across different business cultures? Some business cultures value strict punctuality and fixed schedules, while others take a more flexible approach to time.

Part A: Fill in the Blanks

1. A formal meeting open to all shareholders of a company held once a year is an Annual General Meeting or AGM.

2. Before a meeting begins, the chairperson prepares a list of items to be discussed, known as the agenda.

3. During a meeting, the person taking notes records the decisions and discussions to produce the official minutes.

4. When a chairperson wants to open a meeting or direct attention to the first item, they formally opens the meeting.

5. Inviting specific participants to speak during a discussion helps ensure everyone has an opportunity to share their views.

Part B: Matching Meeting Terms

1. C Chairperson
2. E Agenda
3. D Minutes

4. B Action points

5. A Venue

- **A.** The official physical or virtual location where a meeting takes place
- **B.** Specific tasks assigned to individuals to execute after the meeting concludes
- **C.** The person responsible for running the meeting and keeping order
- **D.** The written record of what was discussed and decided
- **E.** The structured list of topics scheduled for discussion

Part C: Short Answer Exercises

1. What are the key responsibilities of a chairperson *during* a meeting?
The chairperson opens and guides the meeting, follows the agenda, manages time, encourages participation and summarizes decisions.

2. Why is it important to distribute an agenda well in advance of a meeting?
An agenda sent early helps participants prepare, gather information and make the meeting more efficient.

Part A: Fill in the Blanks

1. Using cautious language and qualifying phrases to avoid making overly direct or absolute statements is called hedging.

2. A negotiation approach where both parties work to find solutions that benefit everyone involved is a win-win situation.

3. Asking detailed and probing questions during negotiations helps uncover the other party's underlying needs.

4. When negotiators offer something they value less in exchange for a concession from the other side, they are making trade-offs.

5. When a negotiation stalls completely because neither side will compromise or move forward, they have reached a deadlock.

Part B: Matching Discussion & Negotiation Terms

1. D Hedging

2. C Consensus

3. E Probing

4. B Counter-proposal

5. A Mediator

- **A.** An independent third party brought in to help resolve a deadlock
- **B.** A responding offer made in reaction to an initial bargaining position
- **C.** General agreement reached collectively by all participants
- **D.** Using cautious, non-committal language to soften statements
- **E.** Asking exploratory questions to investigate underlying interests

Part C: Error Correction

Correct the italicized phrases:

1. "We reached a deadlock, so we made a win-win compromise that pleased nobody." → We avoided deadlock by reaching a win-win compromise that satisfied both sides.

2. "During the meeting, he used too much hedging so his point was extremely direct and clear." → During the meeting, he used very little hedging, so his point was direct and clear.

Part A: Fill in the Blanks

1. A brief presentation given to inform colleagues or clients about a specific project update or status report is often structured around different types of presentations, such as a product launch.

2. When preparing a presentation, speakers should practice to ensure proper timing, avoiding rushing through the material or exceeding the allocated time.

3. Maintaining eye contact, varying vocal tone, and projecting your voice properly are all vital elements of managing your delivery during a speech.

4. Building positive engagement and mutual connection with your audience is essential for establishing good rapport early in your presentation.

5. Visual materials such as slides, handouts, and diagrams used to illustrate key concepts during a speech are called visual aids.

Part B: Matching Presentation Terms

1. D Preparation

2. A Rapport

3. B Body language

4. C Visual aids

5. E Q&A session

- **A.** A harmonious, trusting relationship established between speaker and listeners
- **B.** Postures, gestures, and physical movements used while speaking
- **C.** Charts, slides, and diagrams used to clarify information visually
- **D.** The structured process of planning, drafting, and organizing your speech
- **E.** The concluding segment dedicated to answering listener inquiries

Part C: Short Answer Exercises

1. What are the key dos and don'ts when preparing the introduction of a presentation?
Do welcome the audience, state the purpose and outline the presentation.
Don't start with irrelevant details, lengthy apologies or an unclear opening.
_____

2. How should a speaker handle difficult or hostile questions during the final question-and-answer period?
Remain calm and respectful, listen fully, clarify the question,
answer with facts and admit when you need to check something.
_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 62 and 63.

1. A negotiation where two parties try to reach an agreement over a contract or dispute is heavily influenced by the initial stage of negotiation.

2. Before entering formal talks, experienced negotiators spend significant time preparing their strategy, identifying their objectives and acceptable bargaining points.

3. The bargaining stage involves making concessions and counter-proposals to move the discussion closer to a mutually acceptable agreement.

4. Different negotiators exhibit different negotiating styles, ranging from cooperative and collaborative to highly confrontational and hard bargaining.

5. When preparing for a complex international deal, understanding cultural nuances is just as critical as analyzing the financial terms of the deal.

Part B: Matching Negotiation Terms

1. C Bargaining
2. D Concession
3. A Counter-proposal
4. E Negotiating style
5. B Deal

- **A.** A responding offer made in reaction to an initial bargaining position
- **B.** An agreement or contract reached after successful discussions
- **C.** The active discussion process of trading concessions to reach agreement
- **D.** Something given up voluntarily by one party to encourage agreement
- **E.** The characteristic approach or behavioral pattern adopted by a negotiator

Part C: Error Correction

Correct the italicized phrases:

1. "During the bargaining phase, we refused to make any concessions and immediately signed the contract." →
During the bargaining phase, we exchanged concessions before agreeing on and signing the contract.

2. "His negotiating style was entirely cooperative, meaning he shouted down every proposal made by the other side." →
His negotiating style was entirely confrontational: he shouted down every proposal made by the other side.

GURU CHARAN R

VOCABULARY WORKSHEETS | ONE-PAGE LEARNING SUMMARY

Professional and workplace vocabulary

I learned useful terms for jobs, recruitment, working arrangements and workplace responsibilities. This helps me understand formal communication in an office.

Word meanings and matching

Matching words with definitions helped me recognise the meaning of unfamiliar terms and choose vocabulary that fits the context.

Grammar and sentence correction

Correcting sentences helped me pay attention to prepositions, verb forms and clear sentence structure. I can use these skills in writing and speaking.

Business and employment concepts

The exercises introduced ideas such as salaries, wages, employee benefits and workplace policies, helping me understand professional situations.

Applying words in context

Fill-in-the-blanks and short-answer activities encouraged me to think about the meaning of each sentence instead of memorising answers.

My next steps

I will revise unfamiliar words, practise using them in original sentences and apply them in interviews, presentations, emails and everyday conversations.

Overall reflection: Better vocabulary, clearer English and greater professional confidence.
