LAB RECORD

Professional English Lab Integrated

CLASS CODE: EN25C09

STUDENT DETAILS

Student Name: Fredin.R

Roll No: 26CS260

Date:

Subject Name: Professional English Lab Integrated

DEPARTMENT OF HUMANITIES & SCIENCES | AFFILIATED TO ANNA UNIVERSITY | CHENNAI

2026 | STUDENT PORTFOLIO

Fredin.R

Computer Science Engineering Student

ASPIRING SOFTWARE DEVELOPER
C Programming | Algorithms | Practical Projects

BUILDING STRONG FOUNDATIONS FOR SOFTWARE DEVELOPMENT

Focused on C programming, logical problem solving, digital logic and practical projects that turn real-world ideas into software.

CAREER DIRECTION
Software & Application Development

ACADEMIC PROGRAM
B.Tech Computer Science & Engineering | 2026-Present

LEARNING PRIORITIES
C | Data structures & algorithms | GitHub | Application development

“Learn the fundamentals. Build consistently. Turn curiosity into useful technology.”

Contents & Index

Professional English Lab Integrated | Student edition | 2026

College lab-record cover	**1**
Personal student cover	**2**
Contents & index	**3**
Original personal profile, SWOC & projects	**4-16**
Expanded NPTEL study notes - Weeks 1-7, Lectures 1-7	**17-23**
Completed common vocabulary worksheets (22)	**24-45**
Personalised worksheet application examples	**46-47**

Editorial note: The original individual profile, project and self-assessment pages are preserved. The common NPTEL lecture notes have been expanded, existing answered worksheets retained with black underlined answers, and personalised applications added. Only repeated lecture summaries and an incorrectly attributed reference score were excluded.

01

Profile & Career Direction

Academic foundation, learning style, objectives and long-term vision.

I am a first-year B.Tech Computer Science and Engineering student at St. Joseph's College of Engineering. I enjoy understanding systems from first principles and breaking complex problems into smaller parts. My focus is C programming, algorithms, digital logic and practical software development.

PROFILE

I enjoy learning by building and exploring how technology can solve practical problems.

CAREER OBJECTIVE

Build strong programming fundamentals and turn practical ideas into useful software through projects and hackathons.

CAREER VISION

Become a capable software developer, with a long-term goal of working in a major technology company.

HOW I WANT TO GROW

Build progressively harder projects, document my work, learn from communities and develop a strong portfolio.

LEARNING METHOD

Ask questions, connect ideas, understand the mechanism, apply it and reflect on what to improve.

EDUCATION	DETAILS
Program	B.Tech Computer Science and Engineering
College	St. Joseph's College of Engineering
Academic term	2026-Present | First Year
Coursework	SWAYAM: Fundamentals of Computing

02

Technical Skills & Communication

What I am using now, what I am learning and how communication supports my growth.

AREA	CURRENT FOUNDATION / LEARNING FOCUS
Programming	C fundamentals; structs and recursion in progress; Python basics requiring renewed practice.
Computer science	Digital logic, logic gates, adders, latches and basic computer architecture.
Hardware / embedded	Arduino basics, LED interfacing and basic circuit concepts.
Application development	Learning student/warden workflows, report tracking and status management.
Engineering workflow	Git, debugging, clean code, documentation and collaboration.
Future exploration	Data structures, algorithms and complete application development.

PROFESSIONAL SKILLS

Communication | Teamwork | Problem solving | Time management | Presentation | Continuous learning

ENGLISH PRACTICE | SPEAK & IMPROVE / WRITE & IMPROVE

SPEAKING SUMMARY

Practise clear, organized responses, useful examples, steady pacing and confident delivery.

WRITING SUMMARY

Answer the prompt, organize ideas, review grammar and word choice, then revise using feedback.

COMMUNICATION PRACTICE

For speaking, plan a clear point, one example and a short conclusion. For writing, organize ideas before drafting and revise once for meaning, then once for language.

Personal scores and individual feedback were not included in the supplied profile files, so this section records development priorities rather than test results.

EN

English Language Assessment Results

Speak & Improve and SwiftRead | Recorded assessment results

SPEAK & IMPROVE | READ ALOUD

CEFR LEVEL

B1

Read aloud #1

Checked: 21 October 2026 at 21:43

The speaking assessment recorded CEFR B1 for the completed read-aloud task.

SPEAK & IMPROVE | ASSESSMENT HISTORY

READ-ALOUD TASK RESULTS

B1 / B1 / B1

Tasks 1, 2 and 3 each show B1 on the assessment history page. History captured on 21 October 2026 at 22:03.

SWIFTREAD | READING SPEED AND COMPREHENSION

299 WPM

Reading speed

75%

Reading comprehension

Recorded tests: 1

Reading time: 1.2 minutes

Passage: 9199

Taken: 21 October 2026, 21:20

The reading test recorded an average speed of 299 words per minute and 75% correct answers on comprehension questions.

RESULTS RECORD

These figures reproduce the supplied English test results as text. They describe individual assessment results, not a combined English proficiency grade.

03

Software Development Roadmap
A four-year development path with skill priorities and practical milestones.

STAGE	FOCUS	PRACTICAL MILESTONE
YEAR 1	Strengthen C, programming foundations and basic data structures.	Build a small application and establish consistent practice.
YEAR 2	Applications, DSA, communication and leadership.	Build multiple applications and begin internship preparation.
YEAR 3	Advanced problem solving and industry exposure.	Build stronger projects and seek internship experience.
YEAR 4	Career readiness. Prepare a strong portfolio and software-development applications.	

01 | FOUNDATION
C | Structs | Recursion | Basic data structures

02 | APPLICATIONS
UI | Data management | Report workflows

03 | PROBLEM SOLVING
Algorithms | LeetCode | Debugging | Testing

04 | CAREER READINESS
Projects | Internships | Communication | Portfolio

PROOF OF WORK
Document the problem, approach, implementation, results and learning. Finish small projects before increasing complexity.

SEMESTER CHECKPOINTS

CHECKPOINT	REVIEW QUESTION
Foundations	Can I explain the code and solve a similar problem without copying?
Application	Are the workflows implemented, tested and documented?
Consistency	Can I maintain smaller, repeatable coding sessions?
Portfolio	Does each entry state the problem, my contribution and what I learned?

04

Technical Development Framework

A progression from core knowledge to work that can be demonstrated and reviewed.

01 | FOUNDATIONS
Programming | Data structures | Problem solving

02 | LOGIC
Digital logic | State representation | System decomposition

03 | APPLICATIONS
UI | Data management | Student/warden workflows

04 | DELIVERY
Testing | GitHub | Documentation | Completion

CAPABILITY-TO-EVIDENCE MATRIX

TRACK	CURRENT BASIS	NEXT EVIDENCE TO DEVELOP	QUALITY CHECK
Programming	C developing; Python basics.	Small, readable programs with clear GitHub notes.	Correctness and clarity.
Digital logic	Adders, latches and memory concepts.	Document the 8-bit adder and latch-memory experiments.	Explain logic and test behavior.
Applications	Hostel reporting concept; complete-app skills developing.	Build a small reporting application from beginning to end.	Input checks and useful documentation.
Algorithms & DSA	Developing foundations. Practice structs, recursion and basic DSA. Explain why each solution works.		

PORTFOLIO STANDARD
For each future project, document the problem, design choices, implementation, validation and lessons learned. This keeps evidence aligned with what has actually been built.

REPEATABLE BUILD CYCLE

DEFINE
Set the problem, scope and success condition.

DESIGN
Sketch the data flow, components and assumptions.

BUILD
Implement in small steps and use version control.

REVIEW
Test, document limitations and record next improvements.

05

GitHub, LinkedIn & Practical Learning

A build-first approach supported by clear documentation and professional communication.

My GitHub profile documents my first-year CSE learning journey. I am strengthening C programming, algorithms and problem solving while building practical projects such as a 2D Rubik's Cube model and developing a hostel-reporting application concept.

GITHUB README

Hi, I'm Fredin.R. A first-year B.Tech CSE student learning C programming, application development and problem solving.

PRACTICAL APPROACH

Practise clean code, debugging, documentation and collaborative workflows.

CURRENT FOCUS

C structs, recursion, data structures, algorithms and application development.

PROFESSIONAL PROFILE

Use clear project descriptions and a concise LinkedIn summary to communicate goals and learning.

PROFILE LINKS

GitHub: github.com/joya-l

LinkedIn: linkedin.com/in/gabrin-r-aron-810676391

Location shown on LinkedIn: Kanniyakumari, Tamil Nadu, India

PROFILE IMPROVEMENT CHECKLIST

Use a clear headline, a concise About paragraph, consistent education details, and project entries that distinguish completed work from current learning. Add a custom banner and profile photo when ready.

The supplied LinkedIn export was incomplete. The profile summary and headline in this portfolio are drafted from the résumé, not copied from a completed LinkedIn About section.

P1

Hostel Reporting Application

Project concept | Report hostel issues and track resolution

HOSTEL ISSUE TRACKER
REPORTS | STATUS | STUDENT CONFIRMATION

A software concept for reporting hostel water, electricity, Wi-Fi and furniture problems.

WHY THE PROBLEM IS DIFFICULT

Reports need clear status tracking and coordination between students and wardens. A fix should be confirmed before an issue is closed.

PROJECT GOAL

Let students report problems, help wardens manage them, and require student confirmation before marking a report solved.

What the system is designed to do

REPORT

Students submit water, electricity, Wi-Fi or furniture issues.

HANDLE

Wardens review reports and coordinate action.

TRACK

Maintain issue status throughout the resolution workflow.

CONFIRM

Students confirm resolution before a report is marked solved.

Scope note: This is a developing concept for hackathon preparation, not a claim of a completed application.

06

SWOT Analysis & Gap-Closing Plan

A forward-looking self-assessment based on my current stage of study and documented learning direction.

STRENGTHS	DEVELOPMENT AREAS
? Logical thinking and problem solving ? Curiosity, creativity and system decomposition ? Self-reflection and understanding mechanisms	? C foundation, structs and dynamic programming need work ? Limited complete-application experience ? Consistency and project-completion habits need development
OPPORTUNITIES	**RISKS TO MANAGE**
? Hackathons and practical college projects ? ByteXL, LeetCode and GitHub portfolio development ? Internships and application-development experience	? Digital distractions and time-management gaps ? Curiosity drift and increasing project complexity ? Strong competition and rapid technology change

PRIORITY DEVELOPMENT PLAN

PRIORITY	PROFESSIONAL ACTION	EVIDENCE OF PROGRESS
Programming fundamentals	Practise C and Python through coursework-aligned exercises; review errors and keep concise notes.	Completed exercises with readable code and brief explanations.
Structs and algorithms	Learn structs through small programs; progress from recursion to memoization and tabulation.	Small explained programs and tested solutions.
Project execution	Choose one manageable problem; define scope, build incrementally, test and document decisions.	A complete repository with setup steps, screenshots or examples, and known limitations.
Consistent execution	Use short repeatable coding sessions; finish a small application before expanding its scope.	Completed milestones and regular practice notes.

REVIEW STANDARD

At the end of each term, review completed coursework, code and project documentation. Update this assessment only when there is new evidence; select the next learning priority based on demonstrated progress and available time.

SWOT PRESENTATION SPEECH

As a first-year B.Tech CSE student, my strengths are logical problem solving, curiosity, creativity and breaking systems into smaller parts. My C skills, structs, dynamic programming and complete-application experience are still developing. I will strengthen fundamentals, use small repeatable coding sessions and complete a manageable hostel-reporting application. Hackathons, LeetCode, GitHub and internships offer ways to learn through practice. I need to control distractions and project complexity, finish current goals, and gradually increase difficulty.

07

The Person Who Inspires Me

Darshil Parmar and the kind of Data Engineer I hope to become.

PERSON
Darshil Parmar

KNOWN FOR
Data engineering, practical projects and educational content

Darshil Parmar works across data engineering, data warehousing, machine learning and business intelligence, and shares what he learns through his YouTube channel. The reference portfolio highlights his work associated with Apache Airflow and Apache Superset, connecting workflow automation with data exploration and visualization.

WHAT I ADMIRE

His combination of practical engineering and teaching shows how technical work can solve problems and how clear explanations can help others learn.

HOW THIS SHAPES MY GOALS

- Strengthen programming, SQL, databases and data structures first.
- Learn through practical projects and explain the decisions behind them.
- Explore cloud platforms and data engineering as my skills develop.
- Work toward designing reliable data solutions that are useful to others.

TECHNICAL LESSONS

SYSTEMS THINKING
Understand how data is collected, transformed and delivered.

RELIABILITY
Make workflows repeatable and explain how they behave when inputs fail.

OPEN LEARNING
Share useful explanations and project decisions with others.

CAREER APPLICATION
Build foundations first, then progress toward cloud data systems.

Profile source: darshilparmar.com/about

08

Professional Development & Portfolio Summary

Technical growth supported by communication, consistency and proof of work.

COMMUNICATION & TEAMWORK
Develop clear communication, presentation skills and collaboration.

PROBLEM SOLVING
Build persistence, debugging habits and adaptability.

CONTINUOUS LEARNING
Use coursework, documentation, communities and projects to keep improving.

TIME MANAGEMENT
Balance academic responsibilities with regular technical practice.

CURRENT PROOF OF WORK

B.Tech CSE | 2D Rubik's Cube model in C | 8-bit full-adder and latch-memory experiments | GitHub: joya-l | Hostel-reporting application concept.

NEXT DIRECTION

Strengthen C, structs, recursion and basic DSA. Complete a small application, practise algorithms and develop project documentation, communication and internship readiness.

CO-CURRICULAR DEVELOPMENT

Technical projects, hackathons, GitHub learning, professional networking and technical presentations are relevant ways to connect academic learning with practical experience. Participation and outcomes should be added as they are completed.

09

Professional Pitching

Personal introduction - speaking script only.

?Good morning. I am Fredin.R, a first-year B.Tech Computer Science and Engineering student at St. Joseph's College of Engineering. I enjoy understanding how systems work and breaking complex problems into smaller logical parts. I am strengthening C programming, algorithms, digital logic and problem solving. My practical work includes a 2D Rubik's Cube model in C, an 8-bit full adder and latch-based memory experiments. I am also developing a hostel-reporting application concept for hackathon preparation. My strengths are curiosity, creativity and logical thinking. I want to improve consistency, structs and complete-application development through smaller projects and regular practice. My goal is to become a software developer who can understand a real problem, design a solution, build it, debug it and explain it clearly. Thank you.?

PITCH STRUCTURE

INTRODUCE
Name, degree and current academic stage.

ESTABLISH
Core foundations and how I learn.

FOCUS
Current interests and what I am practising now.

CLOSE
The contribution and direction I am working toward.

DELIVERY NOTES

- Speak at a measured pace and pause between ideas.
- Use a natural tone and look up from notes.
- Emphasize what I am learning now and the direction I am pursuing.

These activities connect grammar with conversation. Learners practise describing completed events, asking questions about past experiences and explaining routines that were common earlier but are different now. Repeating these patterns helps connect verb forms and word choice to meaning.

WHAT THE ACTIVITIES DEVELOP

PAST EXPERIENCES
Describe when an event happened, what took place and who was involved.

EARLIER ROUTINES
Explain what someone did regularly before and how the routine changed.

QUESTIONS & RESPONSES
Practise asking follow-up questions and giving positive or negative answers.

VOCABULARY & ACCURACY
Use familiar verbs and sentence patterns to make the meaning clear.

SAMPLE LANGUAGE PATTERNS

PURPOSE	EXAMPLE	DETAIL TO ADD
Past event	I visited my grandparents last summer.	When? Where? What happened?
Follow-up question	What did you do there?	Ask for one specific detail.
Earlier routine	I used to read before bed.	Explain what is different now.

PRACTICE PROMPTS

- Describe a memorable first day at college and one thing you remember clearly.
- Talk about a hobby or routine you had as a child; explain whether it changed.
- Ask a partner about an experience from last year, then ask one follow-up question.

OVERALL TAKEAWAY

Grammar supports real communication. Organizing a response around when, where, what happened and what changed can make memories and past routines easier to describe clearly.

Summary adapted from the Interchange activity section in the first reference PDF.

The earlier portfolio includes workplace vocabulary practice across business and professional communication topics. This summary records the transferable learning focus without importing another student's personal results.

WHAT THE EXERCISES DEVELOP

WORK AND EMPLOYMENT VOCABULARY
Terms for roles, recruitment, working arrangements, responsibilities and compensation help make workplace discussions more precise.
MEANING FROM CONTEXT
Fill-in-the-blank and matching activities encourage checking how a term is used in a sentence, rather than relying only on memorized definitions.
GRAMMAR AND ACCURACY
Sentence correction draws attention to prepositions, verb forms and clear sentence structure in professional communication.
BUSINESS CONCEPTS
Topics such as marketing, finance, leadership, meetings, negotiation and time management connect vocabulary with common workplace situations.

MY NEXT STEPS

PRACTICE PLAN
Review unfamiliar terms, write original example sentences and revisit words that are easy to confuse.
USE IN CONTEXT
Apply suitable vocabulary in coursework, presentations, emails and conversations, checking that the word fits the intended meaning.
OVERALL FOCUS
Build clearer English and professional confidence through regular revision and practical use.

This learning summary describes the worksheet topics; it is not a personal score report or a claim that every worksheet has been completed.

Week 1 - Lecture 1 | Introduction 1: Highlights of Developing Soft Skills

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

Soft skills influence how knowledge becomes useful in daily life. Communication, listening, responsibility and the ability to work with other people affect both study and employment. The introductory session connects these habits with individual character and the decision to improve deliberately.

Why this matters

Technical ability is not enough on its own. An accurate explanation of a solution, an honest response to criticism, and a calm conversation in a team are also evidence of professional growth.

My understanding

The lecture showed me that knowing a rule and consistently following it are two different things.

Connection to my own studies

I want to work toward data engineering, so I need to explain technical decisions in understandable language. For example, when presenting the Smart Plant Care Reminder project idea, I should describe the problem, my method and what I learned.

Practical action: Notice how I respond when someone disagrees with an idea; practise listening first and summarising their point before answering.

Week 2 - Lecture 2 | Introduction 2: Further Highlights of Developing Soft Skills

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

The second introductory lecture builds on personal development. It places attention on self-awareness, preparation, ethical conduct, listening, communication and the willingness to examine one's own behaviour. Progress is more realistic when a person observes habits instead of relying only on good intentions.

Why this matters

A conversation has a purpose, an audience and an expected result. Choosing precise words and checking understanding makes both presentations and everyday teamwork more effective.

My understanding

I would describe the principle through the choices I make each day, rather than through a single examination result.

Connection to my own studies

As I strengthen C, Python, SQL and databases, I can practise concise presentations and active listening. A good team discussion should leave everyone knowing the next action, not merely the words that were spoken.

Practical action: After one class discussion, write down what I explained clearly, what confused others, and one small adjustment for next time.

Week 3 - Lecture 3 | Mindset 1: Definition and Types

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

A mindset refers to the beliefs and assumptions through which a person interprets experiences. A positive outlook encourages effort, but an unexamined negative assumption can discourage action before a problem is even attempted. Mindsets influence reactions to success, mistakes, advice and unfamiliar situations.

Why this matters

Recognising a limiting belief is different from pretending difficulties do not exist. I can acknowledge that a topic is challenging and still choose to attempt a smaller, achievable step.

My understanding

The material encouraged me to work deliberately, review my behaviour and make one measurable adjustment at a time.

Connection to my own studies

When progress on the Smart Plant Care Reminder project idea is slow, I should question the assumption that a first attempt must be perfect. Breaking a complex problem into smaller parts makes the challenge easier to investigate.

Practical action: Identify one sentence I use when a task feels hard, then rewrite it as a realistic statement about a skill I can practise.

Week 4 - Lecture 4 | Mindset 2: Learning Mindsets

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

The learning-mindset lecture distinguishes responses that close off improvement from responses that welcome it. A fixed outlook may treat errors as proof of inability; a growth-oriented approach treats them as feedback about a method, strategy or level of preparation.

Why this matters

Progress in a difficult subject usually requires several attempts, good feedback and corrections. This does not guarantee immediate success, but it encourages sustained, thoughtful practice.

My understanding

I understood the central message as a reminder to turn an idea into a habit, not simply memorise a definition.

Connection to my own studies

If I cannot solve a task using C, Python, SQL and databases immediately, I will experiment with examples, read feedback carefully and retry. The main evidence of improvement is a better method after each attempt.

Practical action: When an exercise fails, record the cause, try a second method, and describe what changed rather than merely recording a wrong answer.

Week 5 - Lecture 5 | Mindset 3: Secrets of Developing Growth Mindsets

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

This session focuses on building a growth mindset through purposeful effort, reflection and practical goals. Improvement becomes more visible when long ambitions are divided into small tasks and when feedback is used to modify the approach rather than judge personal worth.

Why this matters

The word “yet” helps reframe an unfinished skill, but a useful growth mindset also requires evidence: repeated practice, specific study methods and honest review of results.

My understanding

The main lesson for me is that a useful skill appears in ordinary actions, especially when circumstances become demanding.

Connection to my own studies

My plan to develop in data engineering benefits from frequent practice. I can track a practical target, such as solving a set of small coding problems or improving one feature in the Smart Plant Care Reminder project idea.

Practical action: Set one weekly skill goal, complete three practice attempts and compare the final attempt with the first.

Week 6 - Lecture 6 | Managing Time 1: Importance and Perceptions of Time

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

Time is limited, and different activities compete for it. This lecture asks learners to consider how they perceive time and where their hours go. Without first observing real habits, a timetable may become unrealistic or fail to account for interruptions.

Why this matters

Time management starts with awareness. Planning can balance urgent work, long-term learning, breaks and responsibilities while leaving room to adjust when a task takes longer than expected.

My understanding

This discussion made me compare the way I think about a challenge with the steps I actually take to solve it.

Connection to my own studies

When juggling classes and C, Python, SQL and databases, I need an honest picture of my schedule. I can compare planned study time with what I actually use, then adjust without removing necessary rest.

Practical action: Record one study day in half-hour blocks, identify avoidable delays and reserve a fixed period for a priority task.

Week 7 - Lecture 7 | Managing Time 2: Using Time Efficiently

Course: Enhancing Soft Skills and Personality (IIT Kanpur, Prof. T. Ravichandran). These are expanded study notes derived from the lecture themes in the uploaded portfolios, not proof of course completion.

Concept explained

Efficient time use means selecting priorities, estimating effort and limiting distractions. Working for many hours is not the same as producing good work. Concentrated sessions, realistic deadlines and checking completed tasks can improve the use of available time.

Why this matters

A short task list works best when it names a concrete output rather than an unclear intention. Reviewing progress also reveals which tasks repeatedly need more time.

My understanding

I can relate this topic to preparing for a technical career while still developing my fundamentals.

Connection to my own studies

To make steady progress toward data engineering, I should rank important tasks, avoid constant switching and set a visible result for each study session, such as a tested function or a written explanation.

Practical action: Choose three tasks for tomorrow, estimate minutes for each, finish the most important one early and review actual times.

VOCABULARY WORK SHEET

Part A: Fill in the Blanks

Complete the sentences using the correct terms from Units 1, 2, and 3.

1. To find out what someone's job is, you usually ask, "What do you do?"
2. A manager who oversees a team and ensures targets are met is often said to be in charge of the department.
3. Employees who work outside standard office hours in rotation (e.g., one week morning, next week evening) are working in shifts.
4. Outside specialists hired by companies to persuade top executives to leave their current firms are known as headhunters.
5. Job applicants typically submit a CV (curriculum vitae) detailing the story of their working life alongside a covering letter.

Part B: Matching Terms to Definitions

Match each business term on the left with its correct description on the right.

1. B_____ Flexitime
2. C_____ Teleworking
3. E_____ Psychometric test
4. D_____ Shortlist
5. A_____ Referees

- **A.** Previous employers or teachers named to provide character or performance references.
- **B.** A system allowing employees to choose working hours within agreed limits.
- **C.** Working from home using a computer and telecommunications.
- **D.** A selected pool of qualified candidates chosen for final interviews.
- **E.** A written test used to assess a candidate's intelligence and personality.

Part C: Sentence Correction

Identify and correct the errors in the following sentences.

1. *Error:* "I am in charge for the design department." → *Correction:* I am in charge of the design department.

2. *Error:* "He is going to the work by train every morning." → *Correction:*
   He goes to work by train every morning.
3. *Error:* "She is a very responsible in her daily tasks." → *Correction:*
   She is very responsible in her daily tasks.

Part A: Fill in the Blanks

Complete the sentences using the correct terms from Units 4 and 5.

1. Someone who has just left university with a degree is referred to as a graduate.
2. A worker who requires virtually no specialized training or formal qualifications is classified as unskilled.
3. Salespeople often receive a basic salary plus commission, which is a percentage on everything they sell.
4. Senior executives may receive share (stock) options, giving them the right to buy company shares at low prices.
5. High-ranking corporate executives with excessive compensation packages are sometimes referred to informally as fat cats.

Part B: Matching Collocations

Match the adjectives/phrases on the left with their correct prepositional complements.

1. E_____ Skilled _____
2. D_____ Good _____
3. A_____ Computer _____
4. B_____ Self _____
5. C_____ Fringe _____

- **A.** literate
- **B.** starter / motivated
- **C.** benefits
- **D.** at / in
- **E.** with

Part C: Application & Context Analysis

Explain the difference between the following pairs in 1-2 sentences:

1. **Salary vs. Wages:**
   A salary is normally a fixed regular payment, often monthly; wages are usually calculated by hours or days worked.
   _____
2. **Severance package vs. Bonus:**
   A severance package is compensation given when employment ends; a bonus is extra pay for performance or results.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 6, 7, and 8.

1. Manual workers who use their hands and wear blue collars are often contrasted with white-collar workers in offices.
2. When workers stop working temporarily to protest pay or conditions, they go on strike.
3. A company that reduces its management layers and makes itself leaner is said to have delayered.
4. When an employee is dismissed through no fault of their own because their job no longer exists, they are made redundant.
5. An invisible barrier that prevents women from rising beyond a certain corporate level is called the _ glass __ ceiling.

Part B: Matching Health & Safety / Legal Terms

Match each workplace issue with its accurate classification.

1. B_____ Repetitive Strain Injury (RSI)
2. D_____ Passive smoking
3. A_____ Sexual harassment
4. C_____ Equal opportunities
5. E_____ Whistleblowing

- **A.** Unwelcome sexual behavior in the workplace
- **B.** Physical injury caused by continuous data entry or typing
- **C.** British term equivalent to US affirmative action
- **D.** Breathing in other people's tobacco smoke involuntarily
- **E.** Reporting illegal or unethical practices within an organization

Part C: Short Answer Exercises

1. What is the difference between being **dismissed** and being **made redundant**?
   Dismissal means an employer ends someone's employment, often because of conduct or performance. Redundancy happens when the job itself is no longer needed.
   _____
2. What is an **open-plan office**?
   An open-plan office is a shared workspace with few or no dividing walls between desks.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 9, 10, and 11.

1. Directors who are outsiders and do not participate in the day-to-day running of the company are non-executive directors.
2. In the US, the top manager is often the CEO, while chief operating officers (COOs) take care of the day-to-day running.

3. Someone who founds or establishes their own company and takes financial risks is an entrepreneur.
4. Powerful leaders who control massive business empires are often called magnates, moguls, or tycoons.
5. Businesses that are sold off by the state to private investors are privatized.

Part B: Matching Corporate Terms

Match the terms on the left with their definitions.

1. A_____ SME
2. D_____ Corporate culture
3. E_____ Enterprise zone
4. B_____ Head up
5. C_____ Boardroom

- **A.** Small and Medium-sized Enterprise
- **B.** To head or lead a department or activity
- **C.** The room where directors meet
- **D.** The shared beliefs and working style of a company
- **E.** A designated region with fewer laws and lower taxes to encourage business

Part C: Error Correction

Correct the italicized phrases:

1. "He is the head up of our marketing department." →
   He heads up our marketing department.
2. "We need to buy a commerce for our new online shop." →
   We need to set up an e-commerce business for our new online shop.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 12, 13, and 14.

1. A self-employed person working alone, especially a builder or plumber, is a sole trader.
2. A company whose shares can be freely bought and sold on the stock market is a Public Limited Company or PLC.
3. Organizations with social aims like helping the sick or poor are non-profit organizations or charities.
4. Software developers often release a final test version, called a beta version, before official launch.
5. If a design defect is discovered after a product launch, a company may have to recall it.

Part B: Sector Classification

*Classify each industry as either **Manufacturing (M)** or **Services (S)**.*

1.· 1·M Aerospace
2.· 2·S Catering
3.· 3·M Pharmaceuticals
4.· 4·S Property / Real Estate
5.· 5·M Steel production

Part C: Short Definitions

1. Define **CADCAM**:
   CADCAM means Computer-Aided Design and Computer-Aided Manufacturing; computers help design and produce goods.
   _____
2. Define **Focus group**:
   A focus group is a small group of people asked to discuss a product, idea, or advertisement to provide feedback.
   _____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 15, 16, and 17.

1.· Products that are no longer up-to-date because they use old technology are obsolete.
2. Legal protection for an invention that stops others from copying its design is a patent.
3.· The maximum amount that a plant or company can produce is its capacity.
4. Materials, components, labor, and capital used in production are collectively known as inputs.
5. Manufacturing goods efficiently without waste by having components arrive exactly when needed is just-in-time (JIT) production.

Part B: Matching Terms

1. B_____ R&D
2. A_____ Royalties
3. C_____ Craft industry
4. E_____ Work-in-progress
5. D_____ Outsourcing

- **A.** Payments made to an author or inventor for using their protected work
- **B.** Research and Development department
- **C.** Manual, labor-intensive production of items like furniture
- **D.** Using outside suppliers for services previously done in-house
- **E.** Goods that are currently being made on the production line

Part C: Short Explanations

1. Why do companies implement **Just-in-Time (JIT)** manufacturing?
   Companies use JIT to reduce inventory and storage costs, minimize waste, and receive materials only when they are needed.

_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 18, 19, and 20.

1. The objective of quality control is conformance to specifications with zero defects.
2. Comparing your performance against the best operators in the industry is called benchmarking.
3. People who buy everyday services like train travel are customers, while those who buy professional services are clients.
4. A company that sells more than any other competitor in a market is the market leader.
5. When competition is extremely strong and aggressive, it is often described as cut-throat or fierce.

Part B: Matching Terms

1. B_____ Kaizen
2. C_____ Mystery shopper
3. E_____ Market segment
4. D_____ Key players
5. A_____ BPR

- **A.** Business Process Re-engineering
- **B.** Japanese term for continuous improvement
- **C.** Person pretending to be a customer to check service quality
- **D.** The most important companies in a particular market
- **E.** A distinct group of buyers targeted within a market

Part C: Analysis Task

1. What is the difference between a **market leader** and a **challenger**?
   A market leader has the largest market share; a challenger is a competitor trying to increase its share and overtake the leader.

_____

Part A: Fill in the Blanks

1. The four Ps of marketing are product, price, place, and promotion.
2. Consumer goods that last a long time, such as cars and washing machines, are consumer durables.
3. Products that do not have a brand name are known as unbranded products or generics.
4. Cheap items sold at or below cost to attract customers into a store are loss leaders.

5.· A small group of buyers with specialized needs forms a niche market.

Part B: Matching Terms

1. A_____ FMCG
2. B_____ Own-brand
3. D_____ Upmarket
4. C_____ Trade up
5. E_____ Price war

- **A.** Fast-Moving Consumer Goods (fast-selling items like food)
- **B.** Products sold under the retailer's own name
- **C.** Moving from basic models to more sophisticated, expensive ones
- **D.** Designed for higher-income users; upscale
- **E.** When competing companies continually reduce prices in response to each other

Part C: Short Answer

1. Name the **Four Ps** of the marketing mix:
   Product, Price, Place and Promotion.

_____

Part A: Fill in the Blanks

Complete the sentences using terms from Units 24, 25, and 26.

1.· Wholesalers and retailers are collectively known as intermediaries.
2.· A retail store that is part of a group of shops all sharing the same name is a chain store.
3. Unsolicited direct mail sent to consumers' homes is often dismissively called junk mail.
4. A series of advertisements for a particular product or company is an advertising campaign.
5. Businesses combining traditional physical shops with online e-commerce operations practice bricks-and-mortar retail.

Part B: Matching Terms

1. C_____ Cold call
2. E_____ Franchise
3. A_____ Billboard (AmE)
4. D_____ Loyalty card
5. B_____ B2B

- **A.** Open-air hoarding used for advertising
- **B.** Business-to-Business e-procurement
- **C.** Unannounced sales phone call to someone with no prior contact

- **D.** Card offering reward points based on customer spending
- **E.** Business format run by a franchisee under a franchisor's brand

Part A: Fill in the Blanks

1. Money received from sales is known as revenue or turnover.
2. Costs that do not change when production goes up or down (e.g., rent) are fixed costs.
3. Products that have very good profitability and generate large cash surpluses are cash cows.
4. Customers who owe money to a business are recorded as accounts receivable.
5. Independent outside accountants who examine a company's accounts to see if they give a true and fair view are auditors.

Part B: Matching Financial Terms

1. A_____ COGS
2. C_____ Goodwill
3. B_____ Depreciation
4. E_____ In the red
5. D_____ Window dressing

- **A.** Cost of Goods Sold (variable manufacturing costs)
- **B.** Reduction in the book value of fixed assets over time
- **C.** An intangible asset representing a company's good reputation
- **D.** Creative accounting making results look better than they are
- **E.** Operating at a financial loss or having a negative bank balance

Part A: Fill in the Blanks

1. The person who is in charge of running a meeting and keeping participants on track is the chairperson or chair, often referred to simply as the chair.

2. A list of items to be discussed during a meeting, sent out in advance, is called the agenda.

3. When negotiators or meeting participants reach a middle-ground solution where both sides make concessions, they reach a compromise.

4. Using cautious language to avoid making overly direct or absolute statements is known in discussion techniques as hedging.

5. When a meeting discussion completely breaks down and no agreement can be reached, it is referred to as a deadlock.

Part B: Matching Meeting Terms

1. _C_____ AGM
2. _E_____ Minutes
3. _A_____ Consensus
4. _B_____ Action points
5. _D_____ Hedging

- **A.** General agreement reached by all participants
- **B.** Specific tasks assigned to individuals to complete after a meeting finishes
- **C.** Annual General Meeting held once a year for shareholders
- **D.** Avoiding direct or committal statements using qualifying language
- **E.** The written record of decisions and discussions made during a meeting

Part C: Short Answer Exercises

1. What is the main responsibility of a meeting chairperson before a meeting begins?
The chairperson should plan the meeting, prepare an agenda and ensure participants receive the relevant information in advance.

2. What is the difference between reaching a **consensus** and voting on a decision?
Consensus means the group reaches general agreement through discussion; voting decides an issue by counting individual choices.

Part A: Fill in the Blanks

1. The visual items used during a presentation, such as slides, handouts, or overhead projections, are called visual aids.

2. Establishing a positive connection and good mutual relationship with your audience during a presentation is building rapport.

3. The opening part of a presentation where you welcome the audience and outline your structure is the introduction.

4. Moving around too much or making nervous hand gestures can distract from your body language during a speech.

5. When concluding a presentation, speakers typically open the floor to deal with questions from the audience.

Part B: Matching Presentation Stages

1. _C_____ Visual aids
2. _B_____ Body language
3. _D_____ Rapport
4. _E_____ Q&A session
5. _A_____ Handouts

- **A.** Printed materials distributed to listeners to supplement a presentation
- **B.** Postures, gestures, and facial expressions used while speaking
- **C.** Charts, slides, and diagrams used to illustrate key points visually
- **D.** A harmonious, trusting relationship between speaker and listeners
- **E.** The time at the end of a presentation dedicated to answering inquiries

Part C: Error Correction

Correct the italicized phrases:

1. "During my presentation, I will show you some visual supports." → During my presentation, I will show you some visual aids.

2. "Let's open the floor for some inquiries from the spectators." → Let's open the floor for questions from the audience.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 62 through 66.

1. A negotiation style where both sides aim for an outcome that benefits everyone involved is known as a win-win situation.

2. Offering something you value less in exchange for something the other party values less during talks is making trade-offs.

3. When negotiations completely stall and neither side is willing to move or compromise, they have reached a deadlock.

4. An agreement between two or more parties that is enforceable by law after a successful negotiation is a contract.

5. A neutral third party brought in to help resolve a deadlock and mediate an agreement is a mediator.

Part B: Matching Negotiation Tactics

1. _A_____ Probing

2. _D_____ Counter-proposal

3. _B_____ Deadlock

4. _E_____ Concession

5. _C_____ Mediator

- **A.** Asking probing questions to discover the other party's underlying needs
- **B.** A stall in talks where neither side will compromise
- **C.** An independent third party assisting in dispute resolution
- **DT.** A responding offer made in reaction to an initial proposal
- **E.** Something given up voluntarily to reach an agreement

Part C: Short Answer Exercises

1. What is the difference between a **hard bargaining** style and a **win-win** style?
Hard bargaining focuses on winning as much as possible for one side; a win-win style seeks a mutually beneficial agreement.

2. Why is checking the final contract details essential after reaching an agreement?
Checking contract details ensures that all terms are accurate, understood, lawful, and consistent with what was agreed.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 36 and 37.

1. When a company sells its shares to the public for the first time, it floats the company in a flotation / initial public offering (IPO).

2. Short-term lending to businesses is known as commercial credit.

3. Financial products derived from underlying assets, such as futures and options contracts, are known as derivatives.

4. An extended period of rising share prices and optimistic dealer sentiment is referred to as a bull market.

5. Shares in long-established, stable companies with a history of profit in both good and bad times are called blue chips.

Part B: Matching Financial Markets

1. _B_____ Forex

2. _C_____ Bourse

3. _A_____ NASDAQ

4. _E_____ FTSE

5. _D_____ Bear market

- **A.** New York stock market index focusing heavily on high-tech companies
- **B.** Foreign exchange market for buying and selling national currencies
- **C.** An alternative term for a stock market or stock exchange
- **D.** A market characterized by falling prices and pessimistic dealer sentiment
- **E.** London's Financial Times Stock Exchange index

Part C: Short Answer Exercises

1. What is the difference between a **futures contract** and an **options contract**?
A futures contract generally obliges the parties to transact later at agreed terms; an option gives its buyer the right, but not the obligation, to transact.

2. Why are major financial centres like London and New York often referred to by nicknames like "The City" or "Wall Street"?

The City and Wall Street are famous financial districts, so their names are used as shorthand for the financial industries based there.

Part A: Fill in the Blanks

1. The study of how money works, is used, and whether economic activities are profitable is called economics.

2. When a country exports more goods and services than it imports, it maintains a trade surplus.

3. The total monetary value of all goods and services produced within a particular country is its Gross Domestic Product (GDP).

4. A period of negative economic growth where economic output contracts is known as a recession.

5. When a bad recession becomes extremely severe, widespread, and prolonged, it is called a slump or depression.

Part B: Matching Economic Indicators

1. _C_ inflation rate ion rate

2. _D_ Trade deficit

3. _E_ Stagflation

4. _B_ Trough

5. _A_ Stagnation

- **A.** A period when the economy is growing very slowly or not at all
- **B.** The lowest point in an economic cycle before output starts rising again
- **C.** The speed at which general consumer price levels are rising
- **D.** When import payments exceed export earnings, creating a trade gap
- **E.** A difficult economic condition combining slow growth with rapid inflation

Part C: Error Correction

Correct the italicized phrases:

1. "The country's economic indicators show a high rate of inflation speeds." → The country's economic indicators show a high rate of inflation.

2. "When output reaches its lowest level, it hits a peak before rising." → When output reaches its lowest level, it hits a trough before rising.

Part A: Fill in the Blanks

1. Buying or selling securities using confidential information that is not publicly available is illegal insider dealing.

2. A secret agreement among competing companies in the same market to fix prices at a certain level is price fixing.

3. A type of fraud where an employee illegally steals and gets money from their employer is known as embezzlement.

4. The process of hiding the illegal origin of criminal money, often by purchasing property, is money laundering.

5. Directing investment funds exclusively into companies that do not harm people or the environment is ethical investment.

Part B: Matching Crime & Ethics Terms

1. _D_____ Embezzlement

2. _A_____ Counterfeiting

3. _B_____ Bribery

4. _E_____ Code of ethics

5. _C_____ Sweatshop labor

- **A.** Making illegal fake copies of banknotes, documents, or luxury goods
- **B.** Offering or receiving illegal payments to persuade someone to act corruptly
- **C.** Manual labor performed under severely exploitative, underpaid conditions
- **D.** The illegal theft of funds by someone entrusted with managing them within a firm
- **E.** A formal corporate document outlining required moral standards of behavior

Part C: Short Answer Exercises

1. What is the purpose of establishing **Chinese walls** within financial institutions?
Chinese walls separate departments and restrict confidential information to prevent conflicts of interest and insider dealing.

2. Why do institutional investors conduct annual **social performance audits**?
Social performance audits check whether companies meet ethical, social and environmental standards and help investors assess risks.

Part A: Fill in the Blanks

1. The overall period during which a project or task should be completed is referred to as the timescale or timeframe.

2. When work is completed later than the planned completion date, it is behind schedule and there is a delay.

3. Work that is difficult in an interesting, rewarding, and enjoyable way is described as challenging.

4. An extreme state of physical and mental exhaustion caused by chronic work stress is known as burnout.

5. The metaphor used to describe the exhausting, highly competitive modern corporate work environment is the rat race.

Part B: Matching Time & Stress Terms

1. D Downtime
2. E Prioritize
3. C Perfectionism
4. A Downshifting
5. B Stress-induced

- **A.** Choosing to leave behind a stressful career for a simpler, balanced lifestyle
- **B.** An unexpected illness or condition brought on by excessive pressure
- **C.** An unworkable aim for flawlessness when there is no need for it

- **D.** Periods when machinery or computers cannot operate because they are broken
- **E.** Arranging tasks in order of importance before working on them

Part C: Short Answer Exercises

1. What are the key dangers of striving for **perfectionism** when managing daily tasks?
Perfectionism can waste time, delay deadlines, increase stress and reduce productivity by focusing too much on minor details.

2. How do **downshifters** typically redefine their personal idea of success?
Downshifters often define success through well-being, family time, balance and satisfaction rather than salary or status.

Part A: Fill in the Blanks

1. People working below a manager in an organizational hierarchy are known as subordinates.

2. A leadership quality that is forward-thinking, with the power to see clearly how things will be in the future, is called being a visionary.

3. Management decisions that are arrived at by asking employees to contribute in a process of consultation are built on consultation.

4. Granting employees the initiative and authority to make decisions without asking managers first is called empowerment.

5. A corporate environment characterized by male dominance, aggressiveness, and physical strength is a macho culture.

Part B: Matching Leadership & Cultural Terms

1. B Authoritarian
2. E Decentralized
3. D Deference
4. C Corporate culture
5. A Canteen culture

- **A.** Unofficial, unapproved ways that people within an organization think and talk

- **B.** A management style that imposes decisions from above without consultation
- **C.** The shared values, habits, and working style of a specific company
- **D.** Respectful submission and yielding to the authority of superiors
- **E.** Organizational structures where decision-making authority is spread out

Part C: Error Correction

Correct the italicized phrases:

1. "The manager is very remote, so she is completely approachable by all staff." → The manager is very approachable, so all staff feel comfortable speaking to her.

2. "We operate a top-down consensus approach in our department." → We use a consultative, consensus-based approach in our department.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 46, 47, and 48.

1. In the English-speaking business world, people routinely use first names even when they do not know each other very well.

2. A company day where employees are allowed to wear less formal clothing than a standard business suit is called a casual Friday.

3. Being at work when you do not actually need to be there, simply to demonstrate commitment, is known as a culture of presenteeism.

4. A phone extension that is not connected by a physical wire, allowing movement around a home or office, is a cordless phone.

5. A phone number that provides free access for callers, such as an 0800 number, is a toll-free number.

Part B: Matching Etiquette Terms

1. B Surname
2. E Smart casual
3. D Punctuality
4. C Pager

5. AVideoconferencing

- **A.** Holding a face-to-face meeting across locations using computers and cameras
- **B.** A family name shared across relatives
- **C.** A device that receives written messages while on the move
- **D.** Arriving at meetings or appointments on time
- **E.** A relaxed yet professional style of dress that avoids full suits

Part C: Short Answer Exercises

1. What is the standard convention regarding names in the English-speaking business world?
In many English-speaking workplaces, colleagues often use first names, even when they do not know each other well.

2. How do attitudes toward **time** and schedules vary across different business cultures? Some business cultures value strict punctuality and fixed schedules, while others take a more flexible approach to time.

Part A: Fill in the Blanks

1. A formal meeting open to all shareholders of a company held once a year is an Annual General Meeting or AGM.

2. Before a meeting begins, the chairperson prepares a list of items to be discussed, known as the agenda.

3. During a meeting, the person taking notes records the decisions and discussions to produce the official minutes.

4. When a chairperson wants to open a meeting or direct attention to the first item, the chairperson formally opens the meeting.

5. Inviting specific participants to speak during a discussion helps ensure everyone has an opportunity to share their views.

Part B: Matching Meeting Terms

1. C Chairperson
2. E Agenda
3. D Minutes

4. BAction points

5. AVenue

- **A.** The official physical or virtual location where a meeting takes place
- **B.** Specific tasks assigned to individuals to execute after the meeting concludes
- **C.** The person responsible for running the meeting and keeping order
- **D.** The written record of what was discussed and decided
- **E.** The structured list of topics scheduled for discussion

Part C: Short Answer Exercises

1. What are the key responsibilities of a chairperson *during* a meeting?
The chairperson opens and guides the meeting, follows the agenda, manages time, encourages participation and summarizes decisions.

2. Why is it important to distribute an agenda well in advance of a meeting?
An agenda sent early helps participants prepare, gather information and make the meeting more efficient.

Part A: Fill in the Blanks

1. Using cautious language and qualifying phrases to avoid making overly direct or absolute statements is called hedging.

2. A negotiation approach where both parties work to find solutions that benefit everyone involved is a win-win situation.

3. Asking detailed and probing questions during negotiations helps uncover the other party's underlying needs.

4. When negotiators offer something they value less in exchange for a concession from the other side, they are making trade-offs.

5. When a negotiation stalls completely because neither side will compromise or move forward, they have reached a deadlock.

Part B: Matching Discussion & Negotiation Terms

1. D Hedging

2. C Consensus

3. E Probing

4. B Counter-proposal

5. A Mediator

- **A.** An independent third party brought in to help resolve a deadlock
- **B.** A responding offer made in reaction to an initial bargaining position
- **C.** General agreement reached collectively by all participants
- **D.** Using cautious, non-committal language to soften statements
- **E.** Asking exploratory questions to investigate underlying interests

Part C: Error Correction

Correct the italicized phrases:

1. "We reached a deadlock, so we made a win-win compromise that pleased nobody." → We avoided deadlock by reaching a win-win compromise that satisfied both sides.

2. "During the meeting, he used too much hedging so his point was extremely direct and clear." → During the meeting, he used very little hedging, so his point was direct and clear.

Part A: Fill in the Blanks

1. A brief presentation given to inform colleagues or clients about a specific project update or status report is often structured around different types of presentations, such as a product launch.

2. When preparing a presentation, speakers should practice to ensure proper timing, avoiding rushing through the material or exceeding the allocated time.

3. Maintaining eye contact, varying vocal tone, and projecting your voice properly are all vital elements of managing your delivery during a speech.

4. Building positive engagement and mutual connection with your audience is essential for establishing good rapport early in your presentation.

5. Visual materials such as slides, handouts, and diagrams used to illustrate key concepts during a speech are called visual aids.

Part B: Matching Presentation Terms

1. DPreparation

2. ARapport

3. BBody language

4. CVisual aids

5. EQ&A session

- **A.** A harmonious, trusting relationship established between speaker and listeners
- **B.** Postures, gestures, and physical movements used while speaking
- **C.** Charts, slides, and diagrams used to clarify information visually
- **D.** The structured process of planning, drafting, and organizing your speech
- **E.** The concluding segment dedicated to answering listener inquiries

Part C: Short Answer Exercises

1. What are the key dos and don'ts when preparing the introduction of a presentation?
Do welcome the audience, state the purpose and outline the presentation.
Don't start with irrelevant details, lengthy apologies or an unclear opening.

2. How should a speaker handle difficult or hostile questions during the final question-and-answer period?
Remain calm and respectful, listen fully, clarify the question,
answer with facts and admit when you need to check something.

Part A: Fill in the Blanks

Complete the sentences using terms from Units 62 and 63.

1. A negotiation where two parties try to reach an agreement over a contract or dispute is heavily influenced by the initial stage of negotiation.

2. Before entering formal talks, experienced negotiators spend significant time preparing their strategy, identifying their objectives and acceptable bargaining points.

3. The bargaining stage involves making concessions and counter-proposals to move the discussion closer to a mutually acceptable agreement.

4. Different negotiators exhibit different negotiating styles, ranging from cooperative and collaborative to highly confrontational and hard bargaining.

5. When preparing for a complex international deal, understanding cultural nuances is just as critical as analyzing the financial terms of the deal.

Part B: Matching Negotiation Terms

1. C Bargaining
2. D Concession
3. A Counter-proposal
4. E Negotiating style
5. B Deal

- **A.** A responding offer made in reaction to an initial bargaining position
- **B.** An agreement or contract reached after successful discussions
- **C.** The active discussion process of trading concessions to reach agreement
- **D.** Something given up voluntarily by one party to encourage agreement
- **E.** The characteristic approach or behavioral pattern adopted by a negotiator

Part C: Error Correction

Correct the italicized phrases:

1. "During the bargaining phase, we refused to make any concessions and immediately signed the contract." →
During the bargaining phase, we exchanged concessions before agreeing on and signing the contract.

2. "His negotiating style was entirely cooperative, meaning he shouted down every proposal made by the other side." →
His negotiating style was entirely confrontational: he shouted down every proposal made by the other side.

Vocabulary in My Own Words

The worksheet answers in the following section are retained. These additional examples connect the common units to my own interests, using different sentences instead of repeating a generic model response.

01. Jobs, CVs, references and recruitment

I could use these expressions to describe professional responsibilities related to data engineering.

02. Employment terms, salaries and benefits

When explaining C, Python, SQL and databases, I can replace vague phrases with accurate terms from this unit.

03. Offices, equality and occupational safety

I would practise this language when planning and presenting the Smart Plant Care Reminder project idea.

04. Management roles, entrepreneurs and company culture

These words connect business communication with my goal of working in data engineering.

05. Business sectors, public companies and product launches

I can practise a short example based on the Smart Plant Care Reminder project idea, then revise it for clarity.

06. Production, patents and research

The unit gives me a clearer way to communicate progress, problems and next steps in data engineering.

07. Service quality, benchmarking and market competition

This vocabulary would help me discuss the Smart Plant Care Reminder project idea while working with classmates.

08. Marketing, brands and market research

I could use these expressions to describe professional responsibilities related to data engineering.

09. Retailing, franchising and consumers

When explaining C, Python, SQL and databases, I can replace vague phrases with accurate terms from this unit.

10. Meetings, reports and presentations

I would practise this language when planning and presenting the Smart Plant Care Reminder project idea.

11. Sales communication and product launches

These words connect business communication with my goal of working in data engineering.

Vocabulary in My Own Words

The worksheet answers in the following section are retained. These additional examples connect the common units to my own interests, using different sentences instead of repeating a generic model response.

12. Commercial law, contracts and disputes

I can practise a short example based on the Smart Plant Care Reminder project idea, then revise it for clarity.

13. Shares, investment and stock markets

The unit gives me a clearer way to communicate progress, problems and next steps in data engineering.

14. The economy, inflation and economic indicators

This vocabulary would help me discuss the Smart Plant Care Reminder project idea while working with classmates.

15. Finance language and banking controls

I could use these expressions to describe professional responsibilities related to data engineering.

16. Projects, budgets and deadlines

When explaining C, Python, SQL and databases, I can replace vague phrases with accurate terms from this unit.

17. Leadership styles and workplace culture

I would practise this language when planning and presenting the Smart Plant Care Reminder project idea.

18. Business etiquette and telephone use

These words connect business communication with my goal of working in data engineering.

19. Names, schedules and professional manners

I can practise a short example based on the Smart Plant Care Reminder project idea, then revise it for clarity.

20. Meeting procedures, agendas and minutes

The unit gives me a clearer way to communicate progress, problems and next steps in data engineering.

21. Negotiating, compromise and consensus

This vocabulary would help me discuss the Smart Plant Care Reminder project idea while working with classmates.

22. Public speaking, presentation skills and bargaining

I could use these expressions to describe professional responsibilities related to data engineering.
